

Entrust Entelligence™ Security Provider Learning Center

Easy-to-Use Web-based Learning

To facilitate the deployment and utilization of Entrust Entelligence™ Security Provider, this “just-in-time” educational tool allows users to learn at their own pace and refer back to it whenever it is required.

The Security Provider Learning Center

The Security Provider Learning Center is an education portal consisting of short video demonstrations with audio instructions for each task.

End-users are encouraged to view a short introduction to the Entrust Entelligence™ Security Provider, which will briefly describe the product capabilities. Links are then provided from the main portal home page, as well as from this introduction, to each instructional module.

Benefits:

- Clear and concise – each learning module addresses one specific task.
- Reduce help desk calls – improve your return on investment (ROI) with self-service learning.
- Effective education – designed for adult learning styles, with both visual and verbal instructions.
- Ongoing reference – available for review by the end user at any time.

Entrust Entelligence™ Security Provider for Windows is designed to automatically manage and protect digital identities used by Windows-based applications for encryption, digital signatures and authentication.

Entrust Entelligence™ Security Provider for Outlook complements Security Provider for Windows by simplifying the delivery of secure messages from the desktop. It also improves performance of secure messaging by transferring secure e-mail processing to the Entrust Entelligence™ Messaging Server, with virtually no impact to the end-user.

Security Provider Learning Center topics include:

- How do I enroll for an Entrust Digital ID?
- How do I login to my Entrust Security Store?
- How do I change my Entrust Security Store password?
- How do I recover my Entrust Digital ID?
- How do I encrypt a file for myself?
- How do I encrypt a file for other people?
- How do I sign a file?
- How do I both encrypt and sign a file?
- How do I open a secured file?
- What is the update notification icon that has appeared?
- What is the Entrust Certificate Explorer?
- How do I export my keys and certificates to a PKCS #12 file?

ABOUT ENTRUST

Entrust [NASDAQ: ENTU] secures digital identities and information for consumers, enterprises and governments in 1,700 organizations spanning 60 countries. Leveraging a layered security approach to address growing risks, Entrust solutions help secure the most common digital identity and information protection pain points in an organization. These include SSL, authentication, fraud detection, shared data protection and e-mail security. For information, call 888-690-2424, e-mail entrust@entrust.com or visit www.entrust.com.
