Entrust Datacard™

Entrust Certificate Services™

Security Beyond the Certificate

Entrust Datacard's Certificate Services platform greatly reduces security issues associated with certificate lifecycle management. Increased visibility to security loopholes helps you to stay in compliance and prevent threats. The greatest benefit is how easy it is to achieve the peace of mind that comes with more service uptime and maintaining brand reputation.

Certificate Services takes the guesswork out of certificate lifecycle management and is included with digital certificates purchased from Entrust Datacard. Accessible from any web browser an intuitive dashboard delivers critical insights in real-time reporting on actionable activity that helps you avoid security lapses and stay in compliance.

Centralized dashboard make it easy for you to consolidate and manage all of your digital certificates from one location regardless of issuing certification authority (CA).

Service Benefits

- World class support
- Compliance testing for web servers
- Malware scanning and reputation monitoring bundles
- Easy administration with centralized Web-based tools
- Automated certificate lifecycle management capabilities
- Manage Entrust Datacard and third-party certificates on one dashboard
- Protection against unexpected certificate expiry
- Rapid revocation
- Robust audit and reporting tools
- Dashboards and alert features
- Unlimited reissues for SSL/TLS
- Unlimited server licensing
- 256-bit security and trust in more than 99 percent of browsers
- Instant Issuance – for pre-approved domains and organizations
- Integrates with ServiceNow
- Integrates with Venafi

Automated Installation

Automatically install SSL/TLS certificates to avoid misconfigurations and speed up installations.

ACME Services
- Apache and Apache variant platforms.

Turbo auto-install client
- Windows IIS servers.

Flexible Licensing Options

Our unique Subscription based plan gives customers the opportunity to reuse SSL/TLS licenses providing a cost effective way to plan and budget SSL/TLS certificate inventory. When licenses are decommissioned, they are returned to inventory and available for re-use.

Our units based program offers traditional certificate license provisioning.

Best Practices

Ongoing training and thought leadership provide education on practical techniques, trends and security threats.

A digital copy of "Bulletproof SSL and TLS", by Ivan Ristic, is included with your Certificate Services license. This complete guide teaches you how to avoid and fix issues related to SSL/TLS certificates.

Integrated SSL Server Test

Determine if your web server configuration is optimized for security. Our SSL Server Test performs a deep analysis of any SSL/TLS server configuration on the public Internet, identifies vulnerabilties and grades your level of compliance with best practices. It also provides email and screen notifications when servers do not meet your high standards. Correct web server configuration protects against known vulnerabilities.

Certification Authorities

SECURED BY **Entrust** SSL ▲VERIFY

WebTrust Deloitte.

Easy Digital Certificate Management — Right from the Cloud

Certificate Discovery

Find Entrust Datacard and third-party digital certificates on servers across your network. Consolidate all certificates into a single, centralized dashboard making it easier to audit and manage all of your digital certificates regardless of issuing CA.

CT Certificate Import

Query and import certificates from the CT Logs and consolidate your complete inventory to a single management platform. (available for platinum customers)

Easy Lifecycle Management, Reporting & Alerts

Comprehensive tools simplify certificate creation, re-issuance, revocation and renewals. Our comprehensive reporting tools offer deep metrics, data exports, custom filters and more.

Website Security Bundles

Scans, detects and remediates web-based security risks to your website and network. Plus provides reputation monitoring to preserve business uptime and customer trust.

Broad Range of Certificates

- SSL/TLS - EV multi-domain, OV, Wildcard, UC, and Private certificates
- Document Signing
- Code Signing
- S/MIME
- Mobile Device

And, all are supported by Entrust's award winning service.
