

ENTRUST

Primerless Color Ribbons and Retransfer Film

For use in the Artista® CR805 Retransfer Card Printers

HIGHLIGHTS

- Entrust offers genuine print ribbons for optimal performance with the Entrust Artista CR805 Retransfer Card printer. Primerless ribbons are an improved formulation of color ribbon and retransfer film that eliminates the need for primer panels as seen in the original Artista ribbon offerings.
- Primerless ribbons are a simple, enhanced supplies solution, providing high-quality precision images from blank cardstock and true facial tone printing with UV fade resistance for vivid printed cards.
- Primerless ribbons are part of the full retransfer solution, compatible with modular options: laminator, tactile impressor, and color tactile impressor. You can create colorful, stunning card designs with the combination of creativity, Entrust primerless color panel ribbons, and the technology of the Artista CR805 card printer.

KEY FEATURES & BENEFITS

- Unique pigment ribbon formation does not require a primer panel, enabling faster print speeds of 110 cards per hour
- High-resolution image printing from blank cardstock using pigment-based inks with precision dot placement
- Cost savings as a value-priced solution over original primer supply options
- Extend card durability with primerless ribbons. The combination of primerless color ribbon and unique retransfer film improves card durability up to 50% greater in adhesion and abrasion resistance.
- RFID communication allows automated ribbon recognition, increasing security and ease of use.
- Primerless ribbon offerings include full-color pigment panel ribbons along with specialty retransfer film that works in conjunction for high-quality card printing.

THE ENTRUST DIFFERENCE

Genuine Entrust ribbons have been engineered to produce superior image quality with the Artista CR805 retransfer printers. These supplies offer a wide range of truly vibrant color printing and crisp text details.

RIBBON SPECS

- New primerless color panel ribbon options:
 - CMYK, 1,000 panel set, item # 513107-001
 - CMYKK, 1,000 panel set, item # 513107-003
- Retransfer film for primerless ribbons, 1,000 yield, item # 513157-002

REQUIREMENTS

Artista CR805 printers shipped since February 1, 2021, are factory optimized and ready for primerless ribbon use.

Earlier CR805 printer shipments require a simple firmware update to R4.10.2-13 (or higher)

Retransfer primerless ribbons are available exclusively for access control and government markets.

Ensuring the right fit when it comes to card life expectations is critical. The CR805 standalone printer has a built-in simple solution to easily increase card durability for your card program that stands up to life's card demands. Standalone printers can extend card durability simply by applying a second layer of the retransfer film during printing application. With Entrust solutions and our industry expertise on your side - you can print high-quality, vibrant, lasting cards.
