1. Introduction

The Entrust.net SSL Web Server Certification Authorities issue Entrust.net SSL Web Server Certificates to support more secure communications between World Wide Web servers and browsers using the Secure Sockets Layer protocol. Entrust.net uses Entrust Technologies' award winning Entrust/PKI™ family of software products to provide standards-compliant digital certificates that enable more secure on-line communications.

1.1 Overview

This Entrust.net SSL Web Server Certification Practice Statement describes the practices and procedures of (i) the Entrust.net SSL Web Server Certification Authorities, and (ii) Registration Authorities operating under the Entrust.net SSL Web Server Certification Authorities. This Entrust.net SSL Web Server Certification Practice Statement also describes the terms and conditions under which Entrust.net makes Certification Authority and Registration Authority services available in respect to Entrust.net SSL Web Server Certificates. This Entrust.net SSL Web Server Certification Practice Statement is applicable to all persons, entities, and organizations, including, without limitation, all Applicants, Subscribers, Relying Parties, Resellers, Co-marketers and any other persons, entities, or organizations that have a relationship with (i) Entrust.net in respect to Entrust.net SSL Web Server Certificates and/or any services provided by Entrust.net in respect to Entrust.net SSL Web Server Certificates, or (ii) any Registration Authorities operating under an Entrust.net SSL Web Server Certification Authorities, or any Resellers or Co-marketers providing any services in respect to Entrust.net SSL Web Server Certificates. This Entrust.net SSL Web Server Certification Practice Statement is incorporated by reference into all Entrust.net SSL Web Server Certificates issued by an Entrust.net SSL Web Server Certification Authorities. This Entrust.net SSL Web Server Certification Practice Statement provides Applicants, Subscribers, Relying Parties, Resellers, Co-marketers and other persons, entities, and organizations with a statement of the practices and policies of the Entrust.net SSL Web Server Certification Authorities and also of the Registration Authorities operating under the Entrust.net SSL Web Server Certification Authorities. This Entrust.net SSL Web Server Certification Practice Statement also provides a statement of the rights and obligations of Entrust.net, any third parties that are operating Registration Authorities under the Entrust.net SSL Web Server Certification Authorities, Applicants, Subscribers, Relying Parties, Resellers, Co-marketers and any other persons, entities, or organizations that may use or rely on Entrust.net SSL Web Server Certificates or have a relationship with an Entrust.net SSL Web Server Certification Authority or a Registration Authority operating under an Entrust.net SSL Web Server Certification Authority in respect to Entrust.net SSL Web Server Certificates and/or any services in respect to Entrust.net SSL Web Server Certificates.

1.2 Identification

This document is called the Entrust.net SSL Web Server Certification Practice Statement.

1.3 Community and Application

Use of Entrust.net SSL Web Server Certificates is restricted to World Wide Web servers using the Secure Sockets Layer protocol. Any other use of Entrust.net SSL Web Server Certificates is prohibited.

1.3.1 Certification Authorities

In the Entrust.net SSL web server public-key infrastructure, Certification Authorities may accept CSRs and Public Keys from Applicants whose identity has been verified as provided herein by an Entrust.net-operated Registration Authority or by an independent third-party Registration Authority operating under an Entrust.net SSL Web Server Certification Authority. If an Entrust.net SSL Web Server Certificate Application is verified, the verifying Registration Authority will send a request to an Entrust.net SSL Web Server Certification Authority for the issuance of an Entrust.net SSL Web Server Certificate. The

Entrust.net SSL Web Server Certification Authority will create an Entrust.net SSL Web Server Certificate containing the Public Key and identification information contained in the request sent by the Registration Authority to that Entrust.net SSL Web Server Certification Authority. The Entrust.net SSL Web Server Certificate created in response to the request will be digitally signed by the Entrust.net SSL Web Server Certification Authority.

Only Certification Authorities authorized by Entrust.net are permitted to issue Entrust.net SSL Web Server Certificates. In the event that more than one Certification Authority is authorized to issue Entrust.net SSL Web Server Certificates, Entrust.net will post a list of authorized Certification Authorities in the Entrust.net Repository.

1.3.2 Registration Authorities

In the Entrust.net SSL web server public-key infrastructure, Registration Authorities under the Entrust.net SSL Web Server Certification Authorities may accept Entrust.net SSL Web Server Certificate Applications from Applicants and perform a limited verification of the information contained in such Entrust.net SSL Web Server Certificate Applications. If the information provided is verified according to the procedures established by the Entrust.net Policy Authority, a Registration Authority operating under an Entrust.net SSL Web Server Certification Authority may send a request to such Entrust.net SSL Web Server Certification Authority to issue an Entrust.net SSL Web Server Certificate to the Applicant.

Only Registration Authorities authorized by Entrust.net are permitted to submit requests to an Entrust.net SSL Web Server Certification Authority for the issuance of Entrust.net SSL Web Server Certificates. In the event that more than one Registration Authority is authorized to perform this function for Entrust.net SSL Web Server Certificates, Entrust.net will post a list of authorized Registration Authorities in the Entrust.net Repository.

1.3.3 End Entities

End entities for the Entrust.net SSL web server public-key infrastructure consist of:

1. **Applicants** - An Applicant is a person, entity, or organization that has applied for, but has not yet been issued an Entrust.net SSL Web Server Certificate.
2. **Subscribers** - A Subscriber is a person, entity, or organization that has been issued an Entrust.net SSL Web Server Certificate.
3. **Relying Parties** - A Relying Party is a person, entity, or organization that relies on or uses a Entrust.net SSL Web Server Certificate and/or any other information provided in an Entrust.net Repository to verify the identity and Public Key of a Subscriber and/or use such Public Key to send or receive encrypted communications to or from a Subscriber.

1.3.4 Applicability

This Entrust.net SSL Web Server Certification Practice Statement is applicable to Entrust.net SSL Web Server Certificates issued by Entrust.net SSL Web Server Certification Authorities. Entrust.net SSL Web Server Certificates are issued by Entrust.net SSL Web Server Certification Authorities for use by World Wide Web servers providing Secure Sockets Layer-based services. Entrust.net SSL Web Server Certificates conform to the X.509 v3 standard with SSL extensions.

1.4 Contact Details

1.4.1 Specification Administration Organization

The Entrust.net SSL Web Server Certification Practice Statement is administered by the Entrust.net Operational Authority and is based on the policies established by the Entrust.net Policy Authority.

1.4.2 Contact Person

The contact information for questions about Entrust.net SSL Web Server Certificates is:

Entrust.net Inquiries
1000 Innovation Drive

2. General Provisions

2.1 Obligations

2.1.1 Certification Authority Obligations

An Entrust.net SSL Web Server Certification Authority shall:

- (i) provide Certification Authority services in accordance with the terms and conditions of the Entrust.net SSL Web Server Certification Practice Statement;
- (ii) upon receipt of a request from a Registration Authority operating under such Entrust.net SSL Web Server Certification Authority, issue an Entrust.net SSL Web Server Certificate in accordance with the terms and conditions of the Entrust.net SSL Web Server Certification Practice Statement;
- (iii) make available Entrust.net SSL Web Server Certificate revocation information by issuing Entrust.net SSL Web Server Certificates and by issuing and making available Entrust.net SSL Web Server Certificate CRLs in an Entrust.net Repository in accordance with the terms and conditions of the Entrust.net SSL Web Server Certification Practice Statement;
- (iv) issue and publish Entrust.net SSL Web Server Certificate CRLs on a regular schedule in accordance with the terms and conditions of the Entrust.net SSL Web Server Certification Practice Statement; and
- (v) upon receipt of a revocation request from a Registration Authority operating under such Entrust.net SSL Web Server Certification Authority, revoke the specified Entrust.net SSL Web Server Certificate in accordance with the terms and conditions of the Entrust.net SSL Web Server Certification Practice Statement.

In operating the Entrust.net SSL Web Server Certification Authorities, Entrust.net may use one or more representatives or agents to perform its obligations under the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreements, or any Relying Party Agreements, provided that Entrust.net shall remain responsible for its performance.

2.1.2 Registration Authority Obligations

A Registration Authority operating under an Entrust.net SSL Web Server Certification Authority shall:

- (i) receive Entrust.net SSL Web Server Certificate Applications in accordance with the terms and conditions of the Entrust.net SSL Web Server Certification Practice Statement;
- (ii) perform limited verification of information submitted by Applicants when applying for Entrust.net SSL Web Server Certificates, and if such verification is successful, submit a request to an Entrust.net SSL Web Server Certification Authority for the issuance of an Entrust.net SSL Web Server Certificate, all in accordance with the terms and conditions of the Entrust.net SSL Web Server Certification Practice Statement;
- (iii) receive and verify requests from Subscribers for the revocation of Entrust.net SSL Web Server Certificates, and if the verification of a revocation request is successful, submit a request to an Entrust.net SSL Web Server Certification Authority for the revocation of such Entrust.net SSL Web Server Certificate, all in accordance with the terms and conditions of the Entrust.net SSL Web Server Certification Practice Statement;
- (iv) notify Subscribers, in accordance with the terms and conditions of the Entrust.net SSL Web Server Certification Practice Statement, that an Entrust.net SSL Web Server Certificate has been issued to them; and
- (v) notify Subscribers, in accordance with the terms and conditions of the Entrust.net SSL Web Server Certification Practice Statement, that an Entrust.net SSL Web Server Certificate issued to them has been revoked or will soon expire.

Entrust.net may use one or more representatives or agents to perform its obligations in respect of an Entrust.net-operated Registration Authority under the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreements, or any Relying Party Agreements, provided that Entrust.net shall remain responsible for the performance of such representatives or agents under the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreements, or any Relying Party Agreements. Entrust.net may appoint independent third parties to act as Registration Authorities under an Entrust.net SSL Web Server Certification Authority. Such independent third-party Registration Authorities shall be responsible for their performance under the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreements, or any Relying Party Agreements. Entrust.net shall not be responsible for the performance of such independent third-party Registration Authorities. Independent third-party Registration Authorities may use one or more representatives or agents to perform their obligations when acting as a Registration Authority under an Entrust.net SSL Web Server Certification Authority. Independent third-party Registration Authorities shall remain responsible for the performance of such representatives or agents under the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreements, or any Relying Party Agreements. Entrust.net may appoint Resellers and Co-marketers for (i) Entrust.net SSL Web Server Certificates, and (ii) services provided in respect to Entrust.net SSL Web Server Certificates. Such Resellers and Co-marketers shall be responsible for their performance under the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreements, or any Relying Party Agreements. Entrust.net shall not be responsible for the performance of any such Resellers and Co-marketers. Resellers and Co-marketers may use one or more representatives or agents to perform their obligations under the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreements, or any Relying Party Agreements. Resellers and Co-marketers shall remain responsible for the performance of such representatives or agents under the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreements, or any Relying Party Agreements. Independent third-party Registration Authorities, Resellers, and Co-marketers shall be entitled to receive all of the benefit of all (i) disclaimers of representations, warranties, and conditions, (ii) limitations of liability, (iii) representations and warranties from Applicants, Subscribers, and Relying Parties, and (iv) indemnities from Applicants, Subscribers, and Relying Parties, set forth in this Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreements, and any Relying Party Agreements.

2.1.3 Subscriber Obligations

Subscribers and Applicants shall:

- (i) understand and, if necessary, receive proper education in the use of Public-Key cryptography and Certificates including Entrust.net SSL Web Server Certificates;
- (ii) provide, in any communications with Entrust.net or an independent third-party Registration Authority, correct information with no errors, misrepresentations, or omissions;
- (iii) generate a new, secure, and cryptographically sound Key Pair to be used in association with the Subscriber's Entrust.net SSL Web Server Certificate or Applicant's Entrust.net SSL Web Server Certificate Application;
- (iv) read and agree to all terms and conditions of the Entrust.net SSL Web Server Certification Practice Statement and Subscription Agreement;
- (v) refrain from modifying the contents of an Entrust.net SSL Web Server Certificate;
- (vi) use Entrust.net SSL Web Server Certificates exclusively for legal and authorized purposes in accordance with the terms and conditions of the Entrust.net SSL Web Server Certification Practice Statement and applicable laws;
- (vii) only use an Entrust.net SSL Web Server Certificate on behalf of the person, entity, or organization listed as the Subject in such Entrust.net SSL Web Server Certificate;
- (viii) protect the Subscriber's or Applicant's Private Keys by storing them either on a hardware token or a disk and further by storing that device separately from the Subscriber's or Applicant's computer, when not in use;
- (ix) notify Entrust.net or, if Applicant submitted its Entrust.net SSL Web Server Certificate Application to an independent third-party Registration Authority, such independent third-party

- Registration Authority, as soon as reasonably practicable of any change to any information included in the Applicant's Entrust.net SSL Web Server Certificate Application or any change in any circumstances that would make the information in the Applicant's Entrust.net SSL Web Server Certificate Application misleading or inaccurate;
- (ix) notify Entrust.net or, if Subscriber received its Entrust.net SSL Web Server Certificate through an independent third-party Registration Authority, such independent third-party Registration Authority, as soon as reasonably practicable of any change to any information included in the Subscriber's Entrust.net SSL Web Server Certificate or any change in any circumstances that would make the information in the Subscriber's Entrust.net SSL Web Server Certificate misleading or inaccurate;
 - (xi) immediately cease to use an Entrust.net SSL Web Server Certificate if any information included in the Subscriber's Entrust.net SSL Web Server Certificate or if any change in any circumstances would make the information in the Subscriber's Entrust.net SSL Web Server Certificate misleading or inaccurate;
 - (xii) notify Entrust.net or, if Subscriber received its Entrust.net SSL Web Server Certificate from an independent third-party Registration Authority, such independent third-party Registration Authority, immediately of any suspected or actual Compromise of the Subscriber's or Applicant's Private Keys and request the revocation of such Entrust.net SSL Web Server Certificate;
 - (xiii) immediately cease to use the Subscriber's Entrust.net SSL Web Server Certificate upon (a) expiration or revocation of such Entrust.net SSL Web Server Certificate, or (b) any suspected or actual Compromise of the Private Key corresponding to the Public Key in such Entrust.net SSL Web Server Certificate, and remove such Entrust.net SSL Web Server Certificate from the devices and/or software in which it has been installed;
 - (xiv) only use the Subscriber's Entrust.net SSL Web Server Certificate on one (1) World Wide Web server at any given time;
 - (xv) refrain from using the Subscriber's Private Key corresponding to the Public Key in the Subscriber's Entrust.net SSL Web Server Certificate to sign other Certificates; and
 - (xvi) use the Subscriber's or Applicant's own judgment about whether it is appropriate, given the level of security and trust provided by an Entrust.net SSL Web Server Certificate, to use an Entrust.net SSL Web Server Certificate in any given circumstance.

Entrust.net SSL Web Server Certificates and related information may be subject to export, import, and/or use restrictions. Subscribers shall comply with all laws and regulations applicable to a Subscriber's right to export, import, and/or use Entrust.net SSL Web Server Certificates or related information. Subscribers shall be responsible for procuring all required licenses and permissions for any export, import, and/or use of Entrust.net SSL Web Server Certificates or related information. Certain cryptographic techniques, software, hardware, and firmware ("Technology") that may be used in processing or in conjunction with Entrust.net SSL Web Server Certificates may be subject to export, import, and/or use restrictions. Subscribers shall comply with all laws and regulations applicable to a Subscriber's right to export, import, and/or use such Technology or related information. Subscribers shall be responsible for procuring all required licenses and permissions for any export, import, and/or use of such Technology or related information.

2.1.3.1 Subscriber and Applicant Representations and Warranties

Subscribers and Applicants represent and warrant to Entrust.net that:

- (i) all information provided by the Subscriber or Applicant to Entrust.net or to any independent third-party Registration Authorities is correct and does not contain any errors, omissions, or misrepresentations;
- (ii) the Private Key corresponding to the Public Key submitted by the Subscriber and/or Applicant in connection with an Entrust.net SSL Web Server Certificate Application was created using sound cryptographic techniques and has not been Compromised;

- (iii) any information provided to Entrust.net or to any independent third-party Registration Authorities by the Subscriber and/or Applicant in connection with an Entrust.net SSL Web Server Certificate Application does not infringe, misappropriate, dilute, unfairly compete with, or otherwise violate the intellectual property, or other rights of any person, entity, or organization in any jurisdiction;
- (iv) the Applicant shall notify Entrust.net or, if the Applicant submitted its Entrust.net SSL Web Server Certificate Application to an independent third-party Registration Authority, such independent third-party Registration Authority, as soon as practicable if any information included in the Applicant's Entrust.net SSL Web Server Certificate Application changes or if any change in any circumstances would make the information in the Applicant's Entrust.net SSL Web Server Certificate Application misleading or inaccurate;
- (v) the Subscriber shall immediately cease to use the Subscriber's Entrust.net SSL Web Server Certificate if any information included in the Subscriber's Entrust.net SSL Web Server Certificate changes or if any change in any circumstances would make the information in the Subscriber's Entrust.net SSL Web Server Certificate misleading or inaccurate;
- (vi) the Subscriber shall immediately cease to use the Subscriber's Entrust.net SSL Web Server Certificate upon (a) expiration or revocation of such Entrust.net SSL Web Server Certificate, or (b) any suspected or actual Compromise of the Private Key corresponding to the Public Key in such Entrust.net SSL Web Server Certificate, and shall remove such Entrust.net SSL Web Server Certificate from the devices and/or software in which it has been installed; and
- (vii) the Subscriber and/or Applicant will not use Entrust.net SSL Web Server Certificates for any hazardous or unlawful (including tortious) activities.

2.1.3.2 Subscriber Notice Requirements

Subscriber shall display the following notice in a prominent location on Subscriber's World Wide Web site that may be viewed by Relying Parties (for example, in the "legal" or "disclaimers" section of Subscriber's World Wide Web site):

"Reliance on Entrust.net SSL Web Server Certificates is governed by the terms and conditions of the Entrust.net SSL Web Server Certification Practice Statement (www.entrust.net/CPS) and by the Relying Party Agreement (www.entrust.net/customer/relyingparty.htm). Reliance on an Entrust.net SSL Web Server Certificate shall constitute acceptance of the terms and conditions of the Entrust.net SSL Web Server Certification Practice Statement and the Relying Party Agreement."

2.1.4 Relying Party Obligations

Relying Parties shall:

- (i) understand and, if necessary, receive proper education in the use of Public-Key cryptography and Certificates including Entrust.net SSL Web Server Certificates;
- (ii) read and agree to all terms and conditions of the Entrust.net SSL Web Server Certification Practice Statement and the Relying Party Agreement;
- (iii) verify Entrust.net SSL Web Server Certificates, including use of CRLs, in accordance with the certification path validation procedure specified in ITU-T Rec. X.509:1997 | ISO/IEC 9594-8 (1997), taking into account any critical extensions and approved technical corrigenda as appropriate;
- (iv) trust and make use of an Entrust.net SSL Web Server Certificate only if the Entrust.net SSL Web Server Certificate has not expired or been revoked and if a proper chain of trust can be established to a trustworthy root; and
- (v) make their own judgment and rely on an Entrust.net SSL Web Server Certificate only if such reliance is reasonable in the circumstances, including determining whether such reliance is

reasonable given the nature of the security and trust provided by an Entrust.net SSL Web Server Certificate and the value of any transaction that may involve the use of an Entrust.net SSL Web Server Certificate.

Entrust.net SSL Web Server Certificates and related information may be subject to export, import, and/or use restrictions. Relying Parties shall comply with all laws and regulations applicable to a Relying Party's right to use Entrust.net SSL Web Server Certificates and/or related information. Relying Parties shall be responsible for procuring all required licenses and permissions for any export, import, and/or use of Entrust.net SSL Web Server Certificates and/or related information. Certain cryptographic techniques, software, hardware, and firmware ("Technology") that may be used in processing or in conjunction with Entrust.net SSL Web Server Certificates may be subject to export, import, and/or use restrictions. Relying Parties shall comply with all laws and regulations applicable to a Relying Party's right to export, import, and/or use such Technology or related information. Relying Parties shall be responsible for procuring all required licenses and permissions for any export, import, and/or use of such Technology or related information.

2.1.4.1 Relying Party Representations and Warranties

Relying Parties represent and warrant to Entrust.net that:

- (i) the Relying Party shall properly validate an Entrust.net SSL Web Server Certificate before making a determination about whether to rely on such Entrust.net SSL Web Server Certificate, including confirmation that the Entrust.net SSL Web Server Certificate has not expired or been revoked and that a proper chain of trust can be established to a trustworthy root;
- (ii) the Relying Party shall not rely on a revoked or expired Entrust.net SSL Web Server Certificate;
- (iii) the Relying Party shall not rely on an Entrust.net SSL Web Server Certificate that cannot be validated back to a trustworthy root;
- (iv) the Relying Party shall exercise its own judgment in determining whether it is reasonable under the circumstances to rely on an Entrust.net SSL Web Server Certificate, including determining whether such reliance is reasonable given the nature of the security and trust provided by an Entrust.net SSL Web Server Certificate and the value of any transaction that may involve the use of an Entrust.net SSL Web Server Certificate; and
- (v) the Relying Party shall not use an Entrust.net SSL Web Server Certificate for any hazardous or unlawful (including tortious) activities.

2.1.5 Repository Obligations

An Entrust.net Repository shall:

- (i) make available, in accordance with the terms and conditions of the Entrust.net SSL Web Server Certification Practice Statement, Entrust.net SSL Web Server Certificate revocation information published by an Entrust.net SSL Web Server Certification Authority; and
- (ii) make available a copy of the Entrust.net SSL Web Server Certification Practice Statement and other information related to the products and services provided by Entrust.net SSL Web Server Certification Authorities and any Registration Authorities operating under the Entrust.net SSL Web Server Certification Authorities.

2.2 Liability

THE MAXIMUM CUMULATIVE LIABILITY OF ENTRUST.NET, ANY INDEPENDENT THIRD-PARTY REGISTRATION AUTHORITIES OPERATING UNDER AN ENTRUST.NET SSL WEB SERVER CERTIFICATION AUTHORITY, RESELLERS, CO-MARKETERS OR ANY SUBCONTRACTORS, DISTRIBUTORS, AGENTS, SUPPLIERS, EMPLOYEES OR DIRECTORS OF ANY OF THE FOREGOING TO ANY APPLICANTS, SUBSCRIBERS, RELYING PARTIES

OR ANY OTHER PERSONS, ENTITIES, OR ORGANIZATIONS FOR ANY LOSSES, COSTS, EXPENSES, LIABILITIES, DAMAGES, CLAIMS, OR SETTLEMENT AMOUNTS ARISING OUT OF OR RELATING TO USE OF AN ENTRUST.NET SSL WEB SERVER CERTIFICATE OR ANY SERVICES PROVIDED IN RESPECT TO ANY ENTRUST.NET SSL WEB SERVER CERTIFICATES IS LIMITED BY THIS ENTRUST.NET SSL WEB SERVER CERTIFICATION PRACTICE STATEMENT. THIS ENTRUST.NET SSL WEB SERVER CERTIFICATION PRACTICE STATEMENT ALSO CONTAINS LIMITED WARRANTIES, LIMITATIONS ON LIABILITY, AND DISCLAIMERS OF REPRESENTATIONS, WARRANTIES AND CONDITIONS.

2.2.1 CA Liability

2.2.1.1 Warranties and Limitations on Warranties

Entrust.net makes the following limited warranties to Subscribers with respect to the operation of Entrust.net SSL Web Server Certification Authorities:

- (i) Entrust.net SSL Web Server Certification Authorities shall provide Repository services consistent with the practices and procedures set forth in this Entrust.net SSL Web Server Certification Practice Statement;
- (ii) Entrust.net SSL Web Server Certification Authorities shall perform Entrust.net SSL Web Server Certificate issuance consistent with the procedures set forth in this Entrust.net SSL Web Server Certification Practice Statement; and
- (iii) Entrust.net SSL Web Server Certification Authorities shall provide revocation services consistent with the procedures set forth in this Entrust.net SSL Web Server Certification Practice Statement.

Notwithstanding the foregoing, in no event does Entrust.net, any independent third-party Registration Authority operating under an Entrust.net SSL Web Server Certification Authority, or any Resellers, Co-marketers, or any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing make any representations, or provide any warranties, or conditions to any Applicants, Subscribers, Relying Parties, or any other persons, entities, or organizations with respect to (i) the techniques used in the generation and storage of the Private Key corresponding to the Public Key in an Entrust.net SSL Web Server Certificate, including, whether such Private Key has been Compromised or was generated using sound cryptographic techniques, (ii) the reliability of any cryptographic techniques or methods used in conducting any act, transaction, or process involving or utilizing an Entrust.net SSL Web Server Certificate, (iii) any software whatsoever, or (iv) non-repudiation of any Entrust.net SSL Web Server Certificate or any transaction facilitated through the use of an Entrust.net SSL Web Server Certificate, since such determination is a matter of applicable law.

Applicants, Subscribers, and Relying Parties acknowledge and agree that operations in relation to Entrust.net SSL Web Server Certificates and Entrust.net SSL Web Server Certificate Applications are dependent on the transmission of information over communication infrastructures such as, without limitation, the Internet, telephone and telecommunications lines and networks, servers, firewalls, proxies, routers, switches, and bridges (“Telecommunication Equipment”) and that this Telecommunication Equipment is not under the control of Entrust.net or any independent third-party Registration Authority operating under an Entrust.net SSL Web Server Certification Authority, or any Resellers, Co-marketers, or any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing. Neither Entrust.net nor any independent third-party Registration Authority operating under an Entrust.net SSL Web Server Certification Authority, or any Resellers, Co-marketers, or any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing shall be liable for any error, failure, delay, interruption, defect, or corruption in relation to an Entrust.net SSL Web Server Certificate, an Entrust.net SSL Web Server Certificate CRL, or an Entrust.net SSL Web Server Certificate Application to the extent

that such error, failure, delay, interruption, defect, or corruption is caused by such Telecommunication Equipment.

2.2.1.2 Disclaimers

EXCEPT AS SPECIFICALLY PROVIDED IN SECTION 2.2.1.1, NEITHER ENTRUST.NET NOR ANY INDEPENDENT THIRD-PARTY REGISTRATION AUTHORITY OPERATING UNDER AN ENTRUST.NET SSL WEB SERVER CERTIFICATION AUTHORITY, NOR ANY RESELLERS, CO-MARKETERS, OR ANY SUBCONTRACTORS, DISTRIBUTORS, AGENTS, SUPPLIERS, EMPLOYEES, OR DIRECTORS OF ANY OF THE FOREGOING MAKE ANY REPRESENTATIONS OR GIVE ANY WARRANTIES OR CONDITIONS, WHETHER EXPRESS, IMPLIED, STATUTORY, BY USAGE OF TRADE, OR OTHERWISE, AND ENTRUST.NET AND ALL INDEPENDENT THIRD-PARTY REGISTRATION AUTHORITIES OPERATING UNDER AN ENTRUST.NET SSL WEB SERVER CERTIFICATION AUTHORITY, AND ALL RESELLERS, CO-MARKETERS, AND ALL SUBCONTRACTORS, DISTRIBUTORS, AGENTS, SUPPLIERS, EMPLOYEES, AND DIRECTORS OF ANY OF THE FOREGOING SPECIFICALLY DISCLAIM ANY AND ALL REPRESENTATIONS, WARRANTIES, AND CONDITIONS OF MERCHANTABILITY, NON-INFRINGEMENT, TITLE, SATISFACTORY QUALITY, AND/OR FITNESS FOR A PARTICULAR PURPOSE.

2.2.1.3 Loss Limitations

IN NO EVENT SHALL THE TOTAL CUMULATIVE LIABILITY OF ENTRUST.NET, ANY INDEPENDENT THIRD-PARTY REGISTRATION AUTHORITY OPERATING UNDER AN ENTRUST.NET SSL WEB SERVER CERTIFICATION AUTHORITY, ANY RESELLERS, OR CO-MARKETERS, OR ANY SUBCONTRACTORS, DISTRIBUTORS, AGENTS, SUPPLIERS, EMPLOYEES, OR DIRECTORS OF ANY OF THE FOREGOING TO ANY APPLICANT, SUBSCRIBER, RELYING PARTY OR ANY OTHER PERSON, ENTITY, OR ORGANIZATION ARISING OUT OF OR RELATING TO ANY ENTRUST.NET SSL WEB SERVER CERTIFICATE OR ANY SERVICES PROVIDED IN RESPECT TO ENTRUST.NET SSL WEB SERVER CERTIFICATES, INCLUDING ANY USE OR RELIANCE ON ANY ENTRUST.NET SSL WEB SERVER CERTIFICATE, EXCEED ONE THOUSAND UNITED STATES DOLLARS (\$1000.00 U.S.) (“CUMULATIVE DAMAGE CAP”). THIS LIMITATION SHALL APPLY ON A PER ENTRUST.NET SSL WEB SERVER CERTIFICATE BASIS REGARDLESS OF THE NUMBER OF TRANSACTIONS OR CAUSES OF ACTION ARISING OUT OF OR RELATED TO SUCH ENTRUST.NET SSL WEB SERVER CERTIFICATE OR ANY SERVICES PROVIDED IN RESPECT TO SUCH ENTRUST.NET SSL WEB SERVER CERTIFICATE. THE FOREGOING LIMITATIONS SHALL APPLY TO ANY LIABILITY WHETHER BASED IN CONTRACT (INCLUDING FUNDAMENTAL BREACH), TORT (INCLUDING NEGLIGENCE), LEGISLATION OR ANY OTHER THEORY OF LIABILITY, INCLUDING ANY DIRECT, INDIRECT, SPECIAL, STATUTORY, PUNITIVE, EXEMPLARY, CONSEQUENTIAL, RELIANCE, OR INCIDENTAL DAMAGES.

IN THE EVENT THAT LIABILITY ARISING OUT OF OR RELATING TO AN ENTRUST.NET SSL WEB SERVER CERTIFICATE OR ANY SERVICES PROVIDED IN RESPECT TO AN ENTRUST.NET SSL WEB SERVER CERTIFICATE EXCEEDS THE CUMULATIVE DAMAGE CAP SET FORTH IN THIS SECTION ABOVE, THE AMOUNTS AVAILABLE UNDER THE CUMULATIVE DAMAGE CAP SHALL BE APPORTIONED FIRST TO THE EARLIEST CLAIMS TO ACHIEVE FINAL DISPUTE RESOLUTION UNLESS OTHERWISE ORDERED BY A COURT OF COMPETENT JURISDICTION. IN NO EVENT SHALL ENTRUST.NET OR ANY INDEPENDENT THIRD-PARTY REGISTRATION AUTHORITY OPERATING UNDER AN ENTRUST.NET SSL WEB SERVER CERTIFICATION AUTHORITY, OR ANY RESELLERS, CO-MARKETERS, OR ANY SUBCONTRACTORS, DISTRIBUTORS, AGENTS, SUPPLIERS, EMPLOYEES, OR DIRECTORS OF ANY OF THE FOREGOING BE OBLIGATED TO PAY

MORE THAN THE CUMULATIVE DAMAGE CAP FOR ANY ENTRUST.NET SSL WEB SERVER CERTIFICATE OR ANY SERVICES PROVIDED IN RESEPECT TO AN ENTRUST.NET SSL WEB SERVER CERTIFICATE REGARDLESS OF APPORTIONMENT AMONG CLAIMANTS.

IN NO EVENT SHALL ENTRUST.NET OR ANY INDEPENDENT THIRD-PARTY REGISTRATION AUTHORITY OPERATING UNDER AN ENTRUST.NET SSL WEB SERVER CERTIFICATION AUTHORITY, OR ANY RESELLERS, CO-MARKETERS, OR ANY SUBCONTRACTORS, DISTRIBUTORS, AGENTS, SUPPLIERS, EMPLOYEES, OR DIRECTORS OF ANY OF THE FOREGOING BE LIABLE FOR ANY INCIDENTAL, SPECIAL, STATUTORY, PUNITIVE, EXEMPLARY, INDIRECT, RELIANCE, OR CONSEQUENTIAL DAMAGES (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF BUSINESS, LOSS OF BUSINESS OPPORTUNITIES, LOSS OF GOODWILL, LOSS OF PROFITS, BUSINESS INTERRUPTION, LOSS OF DATA, LOST SAVINGS OR OTHER SIMILAR PECUNIARY LOSS) WHETHER ARISING FROM CONTRACT (INCLUDING FUNDAMENTAL BREACH), TORT (INCLUDING NEGLIGENCE), LEGISLATION OR ANY OTHER THEORY OF LIABILITY.

THE FOREGOING LIMITATIONS SHALL APPLY NOTWITHSTANDING THE FAILURE OF ESSENTIAL PURPOSE OF ANY LIMITED REMEDY STATED HEREIN AND EVEN IF ENTRUST.NET OR ANY INDEPENDENT THIRD-PARTY REGISTRATION AUTHORITY OPERATING UNDER AN ENTRUST.NET SSL WEB SERVER CERTIFICATION AUTHORITY, OR ANY RESELLERS, CO-MARKETERS, OR ANY SUBCONTRACTORS, DISTRIBUTORS, AGENTS, SUPPLIERS, EMPLOYEES, OR DIRECTORS OF ANY OF THE FOREGOING HAVE BEEN ADVISED OF THE POSSIBILITY OF THOSE DAMAGES.

SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, SO THESE LIMITATIONS SET FORTH ABOVE MAY NOT APPLY TO CERTAIN APPLICANTS, SUBSCRIBERS, RELYING PARTIES, OR OTHER PERSONS, ENTITIES, OR ORGANIZATIONS. THE DISCLAIMERS OF REPRESENTATIONS, WARRANTIES, AND CONDITIONS AND THE LIMITATIONS OF LIABILITY IN THIS ENTRUST.NET SSL WEB SERVER CERTIFICATION PRACTICE STATEMENT CONSTITUTE AN ESSENTIAL PART OF THE ENTRUST.NET SSL WEB SERVER CERTIFICATION PRACTICE STATEMENT, ANY SUBSCRIPTION AGREEMENTS, AND ANY RELYING PARTY AGREEMENTS. ALL APPLICANTS, SUBSCRIBERS, RELYING PARTIES, AND OTHER PERSONS, ENTITIES, AND ORGANIZATIONS ACKNOWLEDGE THAT BUT FOR THESE DISCLAIMERS OF REPRESENTATIONS, WARRANTIES, AND CONDITIONS AND LIMITATIONS OF LIABILITY, ENTRUST.NET WOULD NOT ISSUE ENTRUST.NET SSL WEB SERVER CERTIFICATES TO SUBSCRIBERS AND NEITHER ENTRUST.NET NOR ANY ANY INDEPENDENT THIRD-PARTY REGISTRATION AUTHORITIES OPERATING UNDER AN ENTRUST.NET SSL WEB SERVER CERTIFICATION AUTHORITY, NOR ANY RESELLERS, CO-MARKETERS, OR ANY SUBCONTRACTORS, DISTRIBUTORS, AGENTS, SUPPLIERS, EMPLOYEES, OR DIRECTORS OF ANY OF THE FOREGOING WOULD PROVIDE SERVICES IN RESPECT TO ENTRUST.NET SSL WEB SERVER CERTIFICATES AND THAT THESE PROVISIONS PROVIDE FOR A REASONABLE ALLOCATION OF RISK.

2.2.1.4 Other Exclusions

Without limitation, neither Entrust.net nor any independent third-party Registration Authorities operating under an Entrust.net SSL Web Server Certification Authority, nor any Resellers or Co-marketers, or any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing shall be liable to any Applicants, Subscribers, Relying Parties or any other person, entity, or organization for any losses, costs, expenses, liabilities, damages, claims, or settlement amounts arising out of or relating to use of an Entrust.net SSL Web Server Certificate or any services provided in respect to an Entrust.net SSL Web Server Certificate if:

- (i) the Entrust.net SSL Web Server Certificate was issued as a result of errors, misrepresentations, or other acts or omissions of a Subscriber or of any other person, entity, or organization;
- (ii) the Entrust.net SSL Web Server Certificate has expired or has been revoked;
- (iii) the Entrust.net SSL Web Server Certificate has been modified or otherwise altered;
- (iv) the Subscriber failed to stop using an Entrust.net SSL Web Server Certificate after the information contain in such Entrust.net SSL Web Server Certificate changed or after circumstances changed so that the information contained in such Entrust.net SSL Web Server Certificate became misleading or inaccurate;
- (v) a Subscriber breached the Entrust.net SSL Web Server Certification Practice Statement or the Subscriber's Subscription Agreement, or a Relying Party breached the Entrust.net SSL Web Server Certification Practice Statement or the Relying Party's Relying Party Agreement;
- (vi) the Private Key associated with the Entrust.net SSL Web Server Certificate has been Compromised; or
- (vii) the Entrust.net SSL Web Server Certificate is used other than as permitted by the Entrust.net SSL Web Server Certification Practice Statement or is used in contravention of applicable law.

In no event shall Entrust.net or any independent third-party Registration Authority operating under an Entrust.net SSL Web Server Certification Authority, or any Resellers, Co-marketers, or any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing be liable to any Applicant, Subscriber, or any other person, entity, or organization for any losses, costs, liabilities, expenses, damages, claims, or settlement amounts arising out of or relating to the refusal by Entrust.net or any independent third-party Registration Authority operating under an Entrust.net SSL Web Server Certification Authority, or any Resellers, Co-marketers, or any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing to issue or request the issuance of an Entrust.net SSL Web Server Certificate. In no event shall Entrust.net or any independent third-party Registration Authority operating under an Entrust.net SSL Web Server Certification Authority, or any Resellers, Co-marketers, or any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing be liable to any Applicant, Subscriber, or any other person, entity, or organization for any losses, costs, liabilities, expenses, damages, claims, or settlement amounts arising out of or relating to any delay by Entrust.net or any independent third-party Registration Authority operating under an Entrust.net SSL Web Server Certification Authority, or any Resellers, Co-marketers, or any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing, in issuing or in requesting the issuance of an Entrust.net SSL Web Server Certificate.

In no event shall Entrust.net or any independent third-party Registration Authority operating under an Entrust.net SSL Web Server Certification Authority, or any Resellers, Co-marketers, or any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing be liable to any Subscriber, Relying Party, or any other person, entity, or organization for any losses, costs, expenses, liabilities, damages, claims, or settlement amounts arising out of or relating to any proceeding or allegation that an Entrust.net SSL Web Server Certificate or any information contained in an Entrust.net SSL Web Server Certificate infringes, misappropriates, dilutes, unfairly competes with, or otherwise violates any patent, trademark, copyright, trade secret, or any other intellectual property right or other right of any person, entity, or organization in any jurisdiction.

2.2.1.5 Hazardous Activities

Entrust.net SSL Web Server Certificates and the services provided by Entrust.net in respect to Entrust.net SSL Web Server Certificates are not designed, manufactured, or intended for use in or in conjunction with hazardous activities or uses requiring fail-safe performance, including the operation of nuclear facilities, aircraft navigation or communications systems, air traffic control, medical devices or direct life support machines. Entrust.net and any independent third-party Registration Authority operating under an Entrust.net

SSL Web Server Certification Authority, and any Resellers, Co-marketers, and any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing specifically disclaim any and all representations, warranties, and conditions with respect to such uses, whether express, implied, statutory, by usage of trade, or otherwise.

2.2.2 RA Liability

The same liability provisions that apply in Section 2.2.1 with respect to Entrust.net SSL Web Server Certification Authorities shall apply with respect to Entrust.net-operated Registration Authorities and independent third-party Registration Authorities operating under Entrust.net SSL Web Server Certification Authorities and all Resellers, Co-marketers and all subcontractors, distributors, agents, suppliers, employees, and directors of any of the foregoing.

2.3 Financial Responsibility

Subscribers and Relying Parties shall be responsible for the financial consequences to such Subscribers, Relying Parties, and to any other persons, entities, or organizations for any transactions in which such Subscribers or Relying Parties participate and which use Entrust.net SSL Web Server Certificates or any services provided in respect to Entrust.net SSL Web Server Certificates. Entrust.net makes no representations and gives no warranties or conditions regarding the financial efficacy of any transaction completed utilizing an Entrust.net SSL Web Server Certificate or any services provided in respect to Entrust.net SSL Web Server Certificates and neither Entrust.net nor any independent third-party Registration Authority operating under an Entrust.net SSL Web Server Certification Authority, nor any Resellers, Co-marketers, nor any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing shall have any liability except as explicitly set forth herein in respect to the use of or reliance on an Entrust.net SSL Web Server Certificate or any services provided in respect to Entrust.net SSL Web Server Certificates.

2.3.1 Indemnification by Relying Parties

RELYING PARTIES SHALL INDEMNIFY AND HOLD ENTRUST.NET AND ALL INDEPENDENT THIRD-PARTY REGISTRATION AUTHORITIES OPERATING UNDER AN ENTRUST.NET SSL WEB SERVER CERTIFICATION AUTHORITY, AND ALL RESELLERS, CO-MARKETERS, AND ALL SUBCONTRACTORS, DISTRIBUTORS, AGENTS, SUPPLIERS, EMPLOYEES, AND DIRECTORS OF ANY OF THE FOREGOING (COLLECTIVELY, THE "INDEMNIFIED PARTIES") HARMLESS FROM AND AGAINST ANY AND ALL LIABILITIES, LOSSES, COSTS, EXPENSES, DAMAGES, CLAIMS, AND SETTLEMENT AMOUNTS (INCLUDING REASONABLE ATTORNEY'S FEES, COURT COSTS, AND EXPERT'S FEES) ARISING OUT OF OR RELATING TO ANY USE OR RELIANCE BY A RELYING PARTY ON ANY ENTRUST.NET SSL WEB SERVER CERTIFICATE OR ANY SERVICE PROVIDED IN RESPECT TO ENTRUST.NET SSL WEB SERVER CERTIFICATES, INCLUDING (I) LACK OF PROPER VALIDATION OF AN ENTRUST.NET SSL WEB SERVER CERTIFICATE BY A RELYING PARTY, (II) RELIANCE BY THE RELYING PARTY ON AN EXPIRED OR REVOKED ENTRUST.NET SSL WEB SERVER CERTIFICATE, (III) USE OF AN ENTRUST.NET SSL WEB SERVER CERTIFICATE OTHER THAN AS PERMITTED BY THE ENTRUST.NET SSL WEB SERVER CERTIFICATION PRACTICE STATEMENT, THE SUBSCRIPTION AGREEMENT, ANY RELYING PARTY AGREEMENT, AND APPLICABLE LAW, (IV) FAILURE BY A RELYING PARTY TO EXERCISE REASONABLE JUDGMENT IN THE CIRCUMSTANCES IN RELYING ON AN ENTRUST.NET SSL WEB SERVER CERTIFICATE, OR (V) ANY CLAIM OR ALLEGATION THAT THE RELIANCE BY A RELYING PARTY ON AN ENTRUST.NET SSL WEB SERVER CERTIFICATE OR THE INFORMATION CONTAINED IN AN ENTRUST.NET SSL WEB SERVER CERTIFICATE INFRINGES, MISAPPROPRIATES, DILUTES, UNFAIRLY COMPETES WITH, OR OTHERWISE VIOLATES THE RIGHTS INCLUDING INTELLECTUAL PROPERTY RIGHTS OR ANY OTHER RIGHTS OF ANYONE IN ANY JURISDICTION. NOTWITHSTANDING THE FOREGOING, RELYING PARTIES SHALL NOT BE

OBLIGATED TO PROVIDE ANY INDEMNIFICATION TO AN INDEMNIFIED PARTY IN RESPECT TO ANY LIABILITIES, LOSSES, COSTS, EXPENSES, DAMAGES, CLAIMS, AND SETTLEMENT AMOUNTS (INCLUDING REASONABLE ATTORNEY'S FEES, COURT COSTS AND EXPERT'S FEES) TO THE EXTENT THAT SUCH LIABILITIES, LOSSES, COSTS, EXPENSES, DAMAGES, CLAIMS, AND SETTLEMENT AMOUNTS (INCLUDING REASONABLE ATTORNEY'S FEES, COURT COSTS, AND EXPERT'S FEES) ARISE OUT OF OR RELATE TO ANY WILLFUL MISCONDUCT BY SUCH INDEMNIFIED PARTY.

2.3.1.1 Indemnification by Subscribers

SUBSCRIBERS SHALL INDEMNIFY AND HOLD ENTRUST.NET AND ALL INDEPENDENT THIRD-PARTY REGISTRATION AUTHORITIES OPERATING UNDER AN ENTRUST.NET SSL WEB SERVER CERTIFICATION AUTHORITY, AND ALL RESELLERS, CO-MARKETERS, AND ALL SUBCONTRACTORS, DISTRIBUTORS, AGENTS, SUPPLIERS, EMPLOYEES, OR DIRECTORS OF ANY OF THE FOREGOING (COLLECTIVELY, THE "INDEMNIFIED PARTIES") HARMLESS FROM AND AGAINST ANY AND ALL LIABILITIES, LOSSES, COSTS, EXPENSES, DAMAGES, CLAIMS, AND SETTLEMENT AMOUNTS (INCLUDING REASONABLE ATTORNEY'S FEES, COURT COSTS, AND EXPERT'S FEES) ARISING OUT OF OR RELATING TO ANY RELIANCE BY A RELYING PARTY ON ANY ENTRUST.NET SSL WEB SERVER CERTIFICATE OR ANY SERVICE PROVIDED IN RESPECT TO ENTRUST.NET SSL WEB SERVER CERTIFICATES, INCLUDING ANY (I) ERROR, MISREPRESENTATION OR OMISSION MADE BY A SUBSCRIBER IN USING OR APPLYING FOR AN ENTRUST.NET SSL WEB SERVER CERTIFICATE, (II) MODIFICATION MADE BY A SUBSCRIBER TO THE INFORMATION CONTAINED IN AN ENTRUST.NET SSL WEB SERVER CERTIFICATE, (III) USE OF AN ENTRUST.NET SSL WEB SERVER CERTIFICATE OTHER THAN AS PERMITTED BY THE ENTRUST.NET SSL WEB SERVER CERTIFICATION PRACTICE STATEMENT, THE SUBSCRIPTION AGREEMENT, ANY RELYING PARTY AGREEMENT, AND APPLICABLE LAW, (IV) FAILURE BY A SUBSCRIBER TO TAKE THE NECESSARY PRECAUTIONS TO PREVENT LOSS, DISCLOSURE, COMPROMISE OR UNAUTHORIZED USE OF THE PRIVATE KEY CORRESPONDING TO THE PUBLIC KEY IN SUCH SUBSCRIBER'S ENTRUST.NET SSL WEB SERVER CERTIFICATE, OR (V) ALLEGATION THAT THE USE OF A SUBSCRIBER'S ENTRUST.NET SSL WEB SERVER CERTIFICATE OR THE INFORMATION CONTAINED IN A SUBSCRIBER'S ENTRUST.NET SSL WEB SERVER CERTIFICATE INFRINGES, MISAPPROPRIATES, DILUTES, UNFAIRLY COMPETES WITH, OR OTHERWISE VIOLATES THE RIGHTS INCLUDING INTELLECTUAL PROPERTY RIGHTS OR ANY OTHER RIGHTS OF ANYONE IN ANY JURISDICTION. NOTWITHSTANDING THE FOREGOING, A SUBSCRIBER SHALL NOT BE OBLIGATED TO PROVIDE ANY INDEMNIFICATION TO AN INDEMNIFIED PARTY IN RESPECT TO ANY LIABILITIES, LOSSES, COSTS, EXPENSES, DAMAGES, CLAIMS, AND SETTLEMENT AMOUNTS (INCLUDING REASONABLE ATTORNEY'S FEES, COURT COSTS AND EXPERTS FEES) TO THE EXTENT THAT SUCH LIABILITIES, LOSSES, COSTS, EXPENSES, DAMAGES, CLAIMS, AND SETTLEMENT AMOUNTS (INCLUDING REASONABLE ATTORNEY'S FEES, COURT COSTS, AND EXPERT'S FEES) ARISE OUT OF OR RELATE TO ANY WILLFUL MISCONDUCT BY SUCH INDEMNIFIED PARTY.

2.3.2 Fiduciary Relationships

Nothing contained in this Entrust.net SSL Web Server Certification Practice Statement, or in any Subscription Agreement, or any Relying Party Agreement shall be deemed to constitute either Entrust.net or any independent third-party Registration Authority operating under an Entrust.net SSL Web Server Certification Authority, or any Resellers, Co-marketers, or any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing, the fiduciary, partner, agent, trustee, or legal representative of any Applicant, Subscriber, Relying Party or any other person, entity, or organization or to create any fiduciary relationship between either Entrust.net or any independent third-party Registration Authority operating under an Entrust.net SSL Web Server Certification Authority, or any Resellers, Co-

marketers, or any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing and any Subscriber, Applicant, Relying Party or any other person, entity, or organization, for any purpose whatsoever. Nothing in the Entrust.net SSL Web Server Certification Practice Statement, or in any Subscription Agreement or any Relying Party Agreement shall confer on any Subscriber, Applicant, Relying Party, or any other third party, any authority to act for, bind, or create or assume any obligation or responsibility, or make any representation on behalf of Entrust.net or any independent third-party Registration Authority operating under an Entrust.net SSL Web Server Certification Authority, or any Resellers, Co-marketers, or any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing.

2.3.3 Administrative Processes

No Stipulation.

2.4 Interpretation and Enforcement

2.4.1 Governing Law

The laws of the Province of Ontario, Canada, excluding its conflict of laws rules, shall govern the construction, validity, interpretation, enforceability and performance of the Entrust.net SSL Web Server Certification Practice Statement, all Subscription Agreements and all Relying Party Agreements. The application of the United Nations Convention on Contracts for the International Sale of Goods to the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreements, and any Relying Party Agreements is expressly excluded. Any dispute arising out of or in respect to the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreement, any Relying Party Agreement, or in respect to any Entrust.net SSL Web Server Certificates or any services provided in respect to any Entrust.net SSL Web Server Certificates that is not resolved by alternative dispute resolution, shall be brought in the provincial or federal courts sitting in Ottawa, Ontario, and each person, entity, or organization hereby agrees that such courts shall have personal and exclusive jurisdiction over such disputes. In the event that any matter is brought in a provincial or federal court, Applicants, Subscribers, and Relying Parties waive any right that such Applicants, Subscribers, and Relying Parties may have to a jury trial.

2.4.1.1 Force Majeure

Neither Entrust.net nor any independent third-party Registration Authority operating under an Entrust.net SSL Web Server Certification Authority, nor any Resellers, Co-marketers, nor any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing shall be in default hereunder or liable for any losses, costs, expenses, liabilities, damages, claims, or settlement amounts arising out of or related to delays in performance or from failure to perform or comply with the terms of the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreement, or any Relying Party Agreement due to any causes beyond its reasonable control, which causes include acts of God or the public enemy, riots and insurrections, war, accidents, fire, strikes and other labor difficulties (whether or not Entrust.net is in a position to concede to such demands), embargoes, judicial action, failure or default of any superior certification authority, lack of or inability to obtain export permits or approvals, necessary labor, materials, energy, utilities, components or machinery, acts of civil or military authorities.

2.4.1.2 Interpretation

All references in this Entrust.net SSL Web Server Certification Practice Statement to “Sections” refer to the sections of this Entrust.net SSL Web Server Certification Practice Statement. As used in this Entrust.net SSL Web Server Certification Practice Statement, neutral pronouns and any variations thereof shall be deemed to include the feminine and masculine and all terms used in the singular shall be deemed to include the plural, and vice versa, as the context may require. The words “hereof”, “herein”, and “hereunder” and

other words of similar import refer to this Entrust.net SSL Web Server Certification Practice Statement as a whole, as the same may from time to time be amended or supplemented, and not to any subdivision contained in this Entrust.net SSL Web Server Certification Practice Statement. The word “including” when used herein is not intended to be exclusive and means “including, without limitation.”

2.4.2 Severability, Survival, Merger, Notice

2.4.2.1 Severability

Whenever possible, each provision of the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreements, and any Relying Party Agreements shall be interpreted in such a manner as to be effective and valid under applicable law. If the application of any provision of the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreements, or any Relying Party Agreements or any portion thereof to any particular facts or circumstances shall be held to be invalid or unenforceable by an arbitrator or court of competent jurisdiction, then (i) the validity and enforceability of such provision as applied to any other particular facts or circumstances and the validity of other provisions of the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreements, or any Relying Party Agreements shall not in any way be affected or impaired thereby, and (ii) such provision shall be enforced to the maximum extent possible so as to effect its intent and it shall be reformed without further action to the extent necessary to make such provision valid and enforceable.

FOR GREATER CERTAINTY, IT IS EXPRESSLY UNDERSTOOD AND AGREED THAT EVERY PROVISION OF THE ENTRUST.NET SSL WEB SERVER CERTIFICATION PRACTICE STATEMENT, ANY SUBSCRIPTION AGREEMENTS, OR ANY RELYING PARTY AGREEMENTS THAT DEAL WITH (I) LIMITATION OF LIABILITY OR DAMAGES, (II) DISCLAIMERS OF REPRESENTATIONS, WARRANTIES, CONDITIONS, OR LIABILITIES, OR (III) INDEMNIFICATION, IS EXPRESSLY INTENDED TO BE SEVERABLE FROM ANY OTHER PROVISIONS OF THE ENTRUST.NET SSL WEB SERVER CERTIFICATION PRACTICE STATEMENT, ANY SUBSCRIPTION AGREEMENTS, OR ANY RELYING PARTY AGREEMENTS AND SHALL BE SO INTERPRETED AND ENFORCED.

2.4.2.2 Survival

The provisions of the section entitled “Definitions” and sections 2.1.3.1, 2.1.4.1, 2.2, 2.3, 2.4, 2.8, 2.9, 3.1.5, 3.1.6, 4.6 and 8.2 shall survive termination or expiration of the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreements, and any Relying Party Agreements. All references to sections that survive termination of the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreements, and any Relying Party Agreements, shall include all sub-sections of such sections. All payment obligations shall survive any termination or expiration of the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreements, and any Relying Party Agreements.

2.4.2.3 Merger

The Entrust.net SSL Web Server Certification Practice Statement, the Subscription Agreements, and the Relying Party Agreements state all of the rights and obligations of Entrust.net, any independent third-party Registration Authorities operating under an Entrust.net SSL Web Server Certification Authority, any Resellers, Co-marketers, and any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing, and any Applicant, Subscriber, or Relying Party and any other persons, entities, or organizations in respect to the subject matter hereof and thereof and such rights and obligations shall not be augmented or derogated by any prior agreements, communications, or understandings of any nature whatsoever whether oral or written. The rights and obligations of Entrust.net, any independent third-party Registration Authorities operating under an Entrust.net SSL Web Server Certification Authority, any

Resellers, Co-marketers, and any subcontractors, distributors, agents, suppliers, employees, and directors of any of the foregoing may not be modified or waived orally and may be modified only in a writing signed or authenticated by a duly authorized representative of Entrust.net.

2.4.2.4 Conflict of Provisions

In the event of a conflict between the provisions of the Entrust.net SSL Web Server Certification Practice Statement and any express written agreement between Entrust.net or an independent third-party Registration Authority operating under an Entrust.net SSL Web Server Certification Authority and a Subscriber or Relying Party, with respect to Entrust.net SSL Web Server Certificates or any services provided in respect to Entrust.net SSL Web Server Certificates, such other express written agreement shall take precedence. In the event of any inconsistency between the provisions of this Entrust.net SSL Web Server Certification Practice Statement and the provisions of any Subscription Agreement or any Relying Party Agreement, the terms and conditions of this Entrust.net SSL Web Server Certification Practice Statement shall govern.

2.4.2.5 Waiver

The failure of Entrust.net to enforce, at any time, any of the provisions of this Entrust.net SSL Web Server Certification Practice Statement, a Subscription Agreement with Entrust.net, or a Relying Party Agreement with Entrust.net or the failure of Entrust.net to require, at any time, performance by any Applicant, Subscriber, Relying Party or any other person, entity, or organization of any of the provisions of this Entrust.net SSL Web Server Certification Practice Statement, a Subscription Agreement with Entrust.net, or a Relying Party Agreement with Entrust.net, shall in no way be construed to be a present or future waiver of such provisions, nor in any way affect the ability of Entrust.net to enforce each and every such provision thereafter. The express waiver by Entrust.net of any provision, condition, or requirement of this Entrust.net SSL Web Server Certification Practice Statement, a Subscription Agreement with Entrust.net, or a Relying Party Agreement with Entrust.net shall not constitute a waiver of any future obligation to comply with such provision, condition, or requirement. The failure of an independent third-party Registration Authority or Reseller operating under an Entrust.net SSL Web Server Certification Authority (“Registration Authority”) to enforce, at any time, any of the provisions of a this Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreement with such Registration Authority, or any Relying Party Agreement with such Registration Authority or the failure to require by such Registration Authority, at any time, performance by any Applicant, Subscriber, Relying Party or any other person, entity, or organization of this Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreement with such Registration Authority, or any Relying Party Agreement with such Registration Authority shall in no way be construed to be a present or future waiver of such provisions, nor in any way affect the ability of such Registration Authority to enforce each and every such provision thereafter. The express waiver by a Registration Authority of any provision, condition, or requirement of a Subscription Agreement with such Registration Authority or a Relying Party Agreement with such Registration Authority shall not constitute a waiver of any future obligation to comply with such provision, condition, or requirement.

2.4.2.6 Notice

Any notice to be given by a Subscriber, Applicant, or Relying Party to Entrust.net under this Entrust.net SSL Web Server Certification Practice Statement, a Subscription Agreement, or a Relying Party Agreement shall be given in writing to the address specified below by prepaid receipted mail, facsimile, or overnight courier, and shall be effective as follows (i) in the case of facsimile or courier, on the next Business Day, and (ii) in the case of receipted mail, five (5) Business Days following the date of deposit in the mail. Any notice to be given by Entrust.net under the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreement, or any Relying Party Agreement shall be given by email or by facsimile or courier to the last address, email address or facsimile number for the Subscriber on file with Entrust.net. In the event of notice by email, the notice shall become effective on the next Business Day. In the event of notice by prepaid receipted mail, facsimile, or overnight courier, notice shall become effective as specified in (i) or (ii), depending on the means of notice utilized.

Notice address for Entrust.net: Entrust.net Inc.

Fax: 1-877-839-3538

2.4.2.7 Assignment

Entrust.net SSL Web Server Certificates and the rights granted under the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreement, or any Relying Party Agreement are personal to the Applicant, Subscriber, or Relying Party that entered into the Subscription Agreement or Relying Party Agreement and cannot be assigned, sold, transferred, or otherwise disposed of, whether voluntarily, involuntarily, by operation of law, or otherwise, without the prior written consent of Entrust.net or the Registration Authority under an Entrust.net SSL Web Server Certification Authority with which such Applicant, Subscriber, or Relying Party has contracted. Any attempted assignment or transfer without such consent shall be void and shall automatically terminate such Applicant's, Subscriber's or Relying Party's rights under the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreement, or any Relying Party Agreement. Entrust.net may assign, sell, transfer, or otherwise dispose of the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreements, or any Relying Party Agreements together with all of its rights and obligations under the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreements, and any Relying Party Agreements (i) to an Affiliate, or (ii) as part of a sale, merger, or other transfer of all or substantially all the assets or stock of the business of Entrust.net to which the Entrust.net SSL Web Server Certification Practice Statement, the Subscription Agreements, and Relying Party Agreements relate. Subject to the foregoing limits, this Agreement shall be binding upon and shall inure to the benefit of permitted successors and assigns of Entrust.net, any third-party Registration Authorities operating under the Entrust.net Certification Authorities, Applicants, Subscribers, and Relying Parties, as the case may be.

2.4.3 Dispute Resolution Procedures

Any disputes between a Subscriber or an Applicant and Entrust.net or any third-party Registration Authorities operating under the Entrust.net Certification Authorities, or a Relying Party and Entrust.net or any third-party Registration Authorities operating under the Entrust.net Certification Authorities, shall be submitted to mediation in accordance with the Commercial Mediation Rules of the American Arbitration Association which shall take place in English in Ottawa, Ontario. In the event that a resolution to such dispute cannot be achieved through mediation within thirty (30) days, the dispute shall be submitted to binding arbitration. The arbitrator shall have the right to decide all questions of arbitrability. The dispute shall be finally settled by arbitration in accordance with the rules of the American Arbitration Association, as modified by this provision. Such arbitration shall take place in English in Ottawa, Ontario, before a sole arbitrator appointed by the American Arbitration Association (AAA) who shall be appointed by the AAA from its Technology Panel and shall be reasonably knowledgeable in electronic commerce disputes. The arbitrator shall apply the laws of the Province of Ontario, without regard to its conflict of laws provisions, and shall render a written decision within thirty (30) days from the date of close of the arbitration hearing, but no more than one (1) year from the date that the matter was submitted for arbitration. The decision of the arbitrator shall be binding and conclusive and may be entered in any court of competent jurisdiction. In each arbitration, the prevailing party shall be entitled to an award of all or a portion of its costs in such arbitration, including reasonable attorney's fees actually incurred. Nothing in the Entrust.net SSL Web Server Certification Practice Statement, or in any Subscription Agreement, or any Relying Party Agreement shall preclude Entrust.net or any third-party Registration Authorities operating under the Entrust.net Certification Authorities from applying to any court of competent jurisdiction for temporary or permanent

injunctive relief, without breach of this Section 2.4.3 and without any abridgment of the powers of the arbitrator, with respect to any (i) alleged Compromise that affects the integrity of an Entrust.net SSL Web Server Certificate, or (ii) alleged breach of the terms and conditions of the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreement, or any Relying Party Agreement. The institution of any arbitration or any action shall not relieve an Applicant, Subscriber or Relying Party of its obligations under the Entrust.net SSL Web Server Certification Practice Statement, any Subscription Agreement, or any Relying Party Agreement.

2.4.3.1 Limitation Period on Arbitrations and Actions

Any and all arbitrations or legal actions in respect to a dispute that is related to an Entrust.net SSL Web Server Certificate or any services provided in respect to an Entrust.net SSL Web Server Certificate shall be commenced prior to the end of one (1) year after (i) the expiration or revocation of the Entrust.net SSL Web Server Certificate in dispute, or (ii) the date of provision of the disputed service or services in respect to the Entrust.net SSL Web Server Certificate in dispute, whichever is sooner. If any arbitration or action in respect to a dispute that is related to an Entrust.net SSL Web Server Certificate or any service or services provided in respect to an Entrust.net SSL Web Server Certificate is not commenced prior to such time, any party seeking to institute such an arbitration or action shall be barred from commencing or proceeding with such arbitration or action.

2.5 Fees

The fees for services provided by Entrust.net in respect to Entrust.net SSL Web Server Certificates are set forth in the Entrust.net Repository. These fees are subject to change, and any such changes shall become effective immediately after posting in the Entrust.net Repository. The fees for services provided by independent third-party Registration Authorities, Resellers and Co-marketers in respect to Entrust.net SSL Web Server Certificates are set forth on the web sites operated by such Registration Authorities, Resellers and Co-marketers. These fees are subject to change, and any such changes shall become effective immediately after posting in such web sites.

2.5.1 Certificate Issuance or Renewal Fees

See the Entrust.net Repository for the fees charged by Entrust.net. See the web sites operated by Registration Authorities operating under the Entrust.net Certification Authorities, Resellers, and Co-marketers for the fees charged by such Registration Authorities, Resellers, and Co-marketers.

2.5.2 Certificate Access Fees

See the Entrust.net Repository for the fees charged by Entrust.net. See the web sites operated by Registration Authorities operating under the Entrust.net Certification Authorities, Resellers, and Co-marketers for the fees charged by such Registration Authorities, Resellers, and Co-marketers.

2.5.3 Revocation or Status Information Access Fees

See the Entrust.net Repository for the fees charged by Entrust.net. See the web sites operated by Registration Authorities operating under the Entrust.net Certification Authorities, Resellers, and Co-marketers for the fees charged by such Registration Authorities, Resellers, and Co-marketers.

2.5.4 Fees for Other Services such as Policy Information

See the Entrust.net Repository for the fees charged by Entrust.net. See the web sites operated by Registration Authorities operating under the Entrust.net Certification Authorities, Resellers, and Co-marketers for the fees charged by such Registration Authorities, Resellers, and Co-marketers.

2.5.5 Refund Policy

Neither Entrust.net nor any Registration Authorities operating under the Entrust.net Certification Authorities nor any Resellers or Co-Marketers provide any refunds for Entrust.net SSL Web Server Certificates or services provided in respect to Entrust.net SSL Web Server Certificates.

2.6 Publication and Repositories

Entrust.net maintains the Entrust.net Repository to store various information related to Entrust.net SSL Web Server Certificates and the operation of Entrust.net SSL Web Server Certification Authorities, Entrust.net Registration Authorities, and third-party Registration Authorities operating under the Entrust.net SSL Web Server Certification Authorities. The Entrust.net SSL Web Server Certification Practice Statement and various other related information is published in the Entrust.net Repository. The Entrust.net SSL Web Server Certification Practice Statement is also available from Entrust.net in hard copy upon request.

2.6.1 Publication of CA Information

The following Entrust.net SSL Web Server Certificate information is published in the Entrust.net Repository:

- (i) the Entrust.net SSL Web Server Certification Practice Statement;
- (ii) information and agreements regarding the subscription for and reliance on Entrust.net SSL Web Server Certificates; and
- (iii) revocations of Entrust.net SSL Web Server Certificates performed by an Entrust.net SSL Web Server Certification Authority.

The data formats used for Entrust.net SSL Web Server Certificates and for Certificate Revocation Lists in the Entrust.net Repository are in accordance with the associated schema definitions as defined in the X.500 Series of Recommendations (1997 edition) as well as some enhancements defined by the X.500 Series of Recommendations.

2.6.2 Frequency of Publication

The Entrust.net SSL Web Server Certification Practice Statement may be re-issued and published in accordance with the policy set forth in Section 8 of this Entrust.net SSL Web Server Certification Practice Statement.

2.6.3 Access Controls

The Entrust.net SSL Web Server Certification Practice Statement is published in the Entrust.net Repository. The Entrust.net SSL Web Server Certification Practice Statement will be available to all Applicants, Subscribers and Relying Parties, but may only be modified by the Entrust.net Policy Authority.

2.6.4 Repositories

The Entrust.net SSL Web Server Certification Authorities maintain the Entrust.net Repositories to allow access to Entrust.net SSL Web Server Certificate-related and CRL information. The information in the Entrust.net Repositories is accessible through a web interface and is periodically updated as set forth in this Entrust.net SSL Web Server Certification Practice Statement. The Entrust.net Repositories are the only approved source for CRL and other information about Entrust.net SSL Web Server Certificates.

2.7 Compliance Audit

Entrust.net SSL Web Server Certification Authorities, Entrust.net-operated Registration Authorities, and independent third-party Registration Authorities operating under the Entrust.net SSL Web Server Certification Authorities shall be audited for compliance against the practices and procedures set forth in the Entrust.net SSL Web Server Certification Practice Statement.

2.7.1 Frequency of Entity Compliance Audit

Entrust.net SSL Web Server Certification Authorities, Entrust.net-operated Registration Authorities, and independent third-party Registration Authorities operating under the Entrust.net SSL Web Server Certification Authorities shall be audited once per calendar year for compliance with the practices and procedures set forth in the Entrust.net SSL Web Server Certification Practice Statement. If the results of an audit report recommend remedial action, Entrust.net or the applicable independent third-party Registration Authority shall initiate corrective action within thirty (30) days of receipt of such audit report.

2.7.2 Identity/Qualifications of Auditor

The compliance audit shall be performed by a certified public accounting firm with a demonstrated competency in the evaluation of Certification Authorities and Registration Authorities. Deloitte & Touche LLP has been selected as the auditor for the Entrust.net Certification Authorities and for the Entrust.net-operated Registration Authorities.

2.7.3 Auditor's Relationship to Audited Party

The certified public accounting firm selected to perform the compliance audit for the Entrust.net SSL Web Server Certification Authorities, Entrust.net-operated Registration Authorities, or independent third-party operated Registration Authorities under the Entrust.net Certification Authorities shall be independent from the entity being audited.

2.7.4 Topics Covered by Audit

The compliance audit shall test compliance of Entrust.net SSL Web Server Certification Authorities, Entrust.net-operated Registration Authorities, or independent third-party operated Registration Authorities under the Entrust.net Certification Authorities against the policies and procedures set forth in this Entrust.net SSL Web Server Certification Practice Statement.

2.7.5 Actions Taken as a Result of Deficiency

Upon receipt of a compliance audit that identifies any deficiencies, the audited Entrust.net SSL Web Server Certification Authority, Entrust.net-operated Registration Authority, or independent third-party operated Registration Authority under an Entrust.net SSL Web Server Certification Authority shall use commercially reasonable efforts to correct any such deficiencies in an expeditious manner.

2.7.6 Communication of Results

The results of all compliance audits shall be communicated, in the case of Entrust.net SSL Web Server Certification Authorities, to the Entrust.net Operational Authority, and, in the case of any Entrust.net-operated Registration Authorities under an Entrust.net SSL Web Server Certification Authorities, to the Entrust.net Operation Authority, and in the case of third-party Registration Authorities operating under an Entrust.net SSL Web Server Certification Authority, to the operational authority for such Registration Authority.

2.8 Confidentiality

Neither Entrust.net nor any independent third-party Registration Authorities operating under the Entrust.net Certification Authorities, nor any Resellers or Co-Marketers shall disclose or sell Applicant or Subscriber names (or other information submitted by an Applicant or Subscriber when applying for an Entrust.net SSL Web Server Certificate), except in accordance with this Entrust.net SSL Web Server Certification Practice Statement, a Subscription Agreement, or a Relying Party Agreement. Entrust.net and all independent third-party Registration Authorities operating under the Entrust.net Certification Authorities, and all Resellers and Co-Marketers shall use a commercially reasonable degree of care to prevent such information from being used or disclosed for purposes other than those set forth in the Entrust.net SSL Web Server Certification Practice Statement, a Subscription Agreement, or a Relying Party Agreement. Notwithstanding the foregoing, Applicants and Subscribers acknowledge that some of the information supplied with an Entrust.net SSL Web Server Certificate Application is incorporated into Entrust.net SSL

Web Server Certificates and that Entrust.net and all independent third-party Registration Authorities operating under the Entrust.net Certification Authorities, and all Resellers and Co-Marketers shall be entitled to make such information publicly available.

2.8.1 Types of Information to be Kept Confidential

Information that is supplied by Applicants, Subscribers, or Relying Parties for the subscription for, use of, or reliance upon an Entrust.net SSL Web Server Certificate, and which is not included in the information described in Section 2.8.2 below, shall be considered to be confidential. Entrust.net and independent third-party Registration Authorities under the Entrust.net Certification Authorities shall be entitled to disclose such information to any subcontractors or agents that are assisting Entrust.net in the verification of information supplied in Entrust.net SSL Web Server Certificate Applications or that are assisting Entrust.net in the operation of the Entrust.net SSL Web Server Certification Authorities or Entrust.net-operated Registration Authorities. Information considered to be confidential shall not be disclosed unless compelled pursuant to legal, judicial, or administrative proceedings, or otherwise required by law. Entrust.net and independent third-party Registration Authorities under the Entrust.net Certification Authorities shall be entitled to disclose information that is considered to be confidential to legal and financial advisors assisting in connection with any such legal, judicial, administrative, or other proceedings required by law, and to potential acquirors, legal counsel, accountants, banks and financing sources and their advisors in connection with mergers, acquisitions, or reorganizations.

2.8.2 Types of Information not Considered Confidential

Information that is included in an Entrust.net SSL Web Server Certificate or a Certificate Revocation List shall not be considered confidential. Information contained in the Entrust.net SSL Web Server Certification Practice Statement shall not be considered confidential. Without limiting the foregoing, information that (i) was or becomes known through no fault of Entrust.net, an independent third-party Registration Authority under an Entrust.net SSL Web Server Certification Authority, a Reseller, or a Co-marketer, (ii) was rightfully known or becomes rightfully known to Entrust.net, an independent third-party Registration Authority under the Entrust.net SSL Web Server Certification Authority, a Reseller, or a Co-marketer without confidential or proprietary restriction from a source other than the Subscriber, (iii) is independently developed by Entrust.net, an independent third-party Registration Authority under an Entrust.net SSL Web Server Certification Authority, a Reseller, or a Co-marketer, or (iv) is approved by a Subscriber for disclosure, shall not be considered confidential.

2.8.3 Disclosure of Certificate Revocation/Suspension Information

If an Entrust.net SSL Web Server Certificate is revoked by an Entrust.net SSL Web Server Certification Authority, a serial number will be included in the Certificate Revocation List entry for the revoked Entrust.net SSL Web Server Certificate.

2.8.4 Release to Law Enforcement Officials

Entrust.net, independent third-party Registration Authorities under an Entrust.net SSL Web Server Certification Authority, Resellers, and Co-marketers shall have the right to release information that is considered to be confidential to law enforcement officials in compliance with applicable law.

2.8.5 Release as Part of Civil Discovery

Entrust.net, independent third-party Registration Authorities under an Entrust.net SSL Web Server Certification Authority, Resellers, and Co-marketers may disclose information that is considered confidential during the course of any arbitration, litigation, or any other legal, judicial, or administrative proceeding relating to such information. Any such disclosures shall be permissible provided that Entrust.net, the independent third-party Registration Authority, Reseller, or Co-marketer uses commercially reasonable efforts to obtain a court-entered protective order restricting the use and disclosure of any such information to the extent reasonably required for the purposes of such arbitration, litigation, or any other legal, judicial, or administrative proceeding.

2.8.6 Disclosure Upon Owner's Request

Entrust.net, independent third-party Registration Authorities under an Entrust.net SSL Web Server Certification Authority, Resellers, and Co-marketers may disclose information provided to Entrust.net, such Registration Authority, Reseller or Co-marketer, by an Applicant, a Subscriber, or a Relying Party upon request of such Applicant, Subscriber, or Relying Party.

2.8.7 Other Information Release Circumstances

No stipulation.

2.9 Intellectual Property Rights

Entrust.net retains all right, title, and interest (including all intellectual property rights), in, to and under all Entrust.net SSL Web Server Certificates, except for any information that is supplied by an Applicant or a Subscriber and that is included in an Entrust.net SSL Web Server Certificate, which information shall remain the property of the Applicant or Subscriber. All Applicants and Subscribers grant to Entrust.net and any Registration Authorities operating under the Entrust.net Certification Authorities a non-exclusive, worldwide, paid-up, royalty-free license to use, copy, modify, publicly display, and distribute such information, by any and all means and through any and all media whether now known or hereafter devised for the purposes contemplated under the Entrust.net SSL Web Server Certification Practice Statement, the Subscriber's Subscription Agreement, and any Relying Party Agreements. Entrust.net and any Registration Authorities operating under the Entrust.net Certification Authorities shall be entitled to transfer, convey, or assign this license in conjunction with any transfer, conveyance, or assignment as contemplated in Section 2.4.2.7. Entrust.net grants to Subscribers and Relying Parties a non-exclusive, non-transferable license to use, copy, and distribute Entrust.net SSL Web Server Certificates, subject to such Entrust.net SSL Web Server Certificates being used as contemplated under the Entrust.net SSL Web Server Certification Practice Statement, the Subscriber's Subscription Agreement, and any Relying Party Agreements, and further provided that such Entrust.net SSL Web Server Certificates are reproduced fully and accurately and are not published in any publicly available database, repository, or directory without the express written permission of Entrust.net. Except as expressly set forth herein, no other right is or shall be deemed to be granted, whether by implication, estoppel, inference or otherwise. Subject to availability, Entrust.net may in its discretion make copies of one or more Cross Certificate(s) available to Subscribers.

Entrust.net grants permission to reproduce the Entrust.net SSL Web Server Certification Practice Statement provided that (i) the copyright notice on the first page of this Entrust.net SSL Web Server Certification Practice Statement is retained on any copies of the Entrust.net SSL Web Server Certification Practice Statement, and (ii) the Entrust.net SSL Web Server Certification Practice Statement is reproduced fully and accurately. Entrust.net retains all right, title, and interest (including all intellectual property rights), in, to and under the Entrust.net SSL Web Server Certification Practice Statement.

In no event shall Entrust.net or any independent third-party Registration Authority operating under an Entrust.net SSL Web Server Certification Authority, or any Resellers or Co-marketers, or any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing be liable to any Applicants, Subscribers, or Relying Parties or any other third parties for any losses, costs, liabilities, expenses, damages, claims, or settlement amounts arising from or relating to claims of infringement, misappropriation, dilution, unfair competition, or any other violation of any patent, trademark, copyright, trade secret, or any other intellectual property or any other right of person, entity, or organization in any jurisdiction arising from or relating to any Entrust.net SSL Web Server Certificate or arising from or relating to any services provided in relation to any Entrust.net SSL Web Server Certificate.

3 Identification and Authentication

3.1 Initial Registration

To obtain an Entrust.net SSL Web Server Certificate, an Applicant must: (i) generate a secure and cryptographically sound Key Pair, (ii) agree to all of the terms and conditions of the Entrust.net SSL Web Server Certification Practice Statement and the Subscription Agreement, (iii) complete and submit an Entrust.net SSL Web Server Certificate Application, providing all information requested by an Entrust.net-operated Registration Authority or by an independent third-party Registration Authority under an Entrust.net SSL Web Server Certification Authority (a "Registration Authority") without any errors, misrepresentation, or omissions. Upon an Applicant's completion of the Entrust.net SSL Web Server Certificate Application and acceptance of the terms and conditions of this Entrust.net SSL Web Server Certification Practice Statement and the Subscription Agreement, a Registration Authority or a third-party authorized by a Registration Authority shall perform limited verification of some of the information contained in the Entrust.net SSL Web Server Certificate Application. If the limited verification performed by a Registration Authority is successful, the Registration Authority may, in its sole discretion, request the issuance to the Applicant of an Entrust.net SSL Web Server Certificate from an Entrust.net SSL Web Server Certification Authority. If a Registration Authority refuses to request the issuance of an Entrust.net SSL Web Server Certificate, the Registration Authority shall (i) use commercially reasonable efforts to notify the Applicant by email of any reasons for refusal, and (ii) promptly refund any amounts that have been paid in connection with the Entrust.net SSL Web Server Certificate Application. In the event of successful verification of an Entrust.net SSL Web Server Certificate Application, the Registration Authority shall submit a request to an Entrust.net SSL Web Server Certification Authority for the issuance of an Entrust.net SSL Web Server Certificate and shall notify the Applicant by email once an Entrust.net SSL Web Server Certificate has been issued by the Entrust.net SSL Web Server Certification Authority. The Applicant will be provided with a URL that can be used to retrieve the Entrust.net SSL Web Server Certificate. Upon issuance of an Entrust.net SSL Web Server Certificate, neither Entrust.net nor any independent third-party Registration Authority operating under an Entrust.net SSL Web Server Certification Authority, nor any Resellers or Co-marketers, or any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing shall have any obligation to perform any ongoing monitoring, investigation, or verification of the information provided in an Entrust.net SSL Web Server Certificate Application.

3.1.1 Types of Names

The Subject names in an Entrust.net SSL Web Server Certificate comply with the X.500 Distinguished Name (DN) form. Entrust.net SSL Web Server Certification Authorities shall use a single naming convention as set forth below. Each Entrust.net SSL Web Server Certificate shall contain the following information:

- (i) the "Country Name" (C) which is the two-letter ISO 3166 code for the country in which the Applicant is located and plans to host the World Wide Web server on which the Applicant is intending to install the Entrust.net SSL Web Server Certificate;
- (ii) the "Organization Name" (O) which is the name of the organization in the case of a corporation, partnership, or other entity. In the case of a sole proprietorship, the organization name can be the name of the Applicant;
- (iii) the "Organizational Unit Name" (OU) which is an optional field. The OU field may be used to distinguish between different organizational groups within an organization (for example, to distinguish between human resources, marketing, and development); and
- (iv) the "Common Name" (CN) which is the fully qualified hostname or path used in the DNS of the World Wide Web server on which the Applicant is intending to install the Entrust.net SSL Web Server Certificate.

3.1.2 Need for Names to Be Meaningful

The value of the Common Name to be used in an Entrust.net SSL Web Server Certificate shall be the Applicant's fully qualified hostname or path that is used in the DNS of the World Wide Web server on which the Applicant is intending to install the Entrust.net SSL Web Server Certificate.

3.1.3 Rules for Interpreting Various Name Forms

Subject names for Entrust.net SSL Web Server Certificates shall be interpreted as set forth in Sections 3.1.1 and 3.1.2.

3.1.4 Uniqueness of Names

Names shall be defined unambiguously for each Subject in an Entrust.net Repository. The Distinguished Name attribute should be unique to the World Wide Web server to which it is issued, and is used to prevent two Entrust.net SSL Web Server Certificates from being assigned the same Subject name. Each Entrust.net SSL Web Server Certificate shall be issued a unique serial number.

3.1.5 Name Claim Dispute Resolution Procedure

The Subject names in Entrust.net SSL Web Server Certificates are issued on a "first come, first served" basis. By accepting a Subject name for incorporation into an Entrust.net SSL Web Server Certificate, a Registration Authority operating under an Entrust.net SSL Web Server Certification Authority does not determine whether the use of such information infringes upon, misappropriates, dilutes, unfairly competes with, or otherwise violates any intellectual property right or any other rights of any person, entity, or organization. The Entrust.net Certification Authorities and any Registration Authorities operating under the Entrust.net Certification Authorities neither act as an arbitrator nor provide any dispute resolution between Subscribers or between Subscribers and third-party complainants in respect to the use of any information in an Entrust.net SSL Web Server Certificate. The Entrust.net SSL Web Server Certification Practice Statement does not bestow any procedural or substantive rights on any Subscriber or third-party complainant in respect to any information in an Entrust.net SSL Web Server Certificate. Neither the Entrust.net Certification Authorities nor any Registration Authorities operating under the Entrust.net Certification Authorities shall in any way be precluded from seeking legal or equitable relief (including injunctive relief) in respect to any dispute between Subscribers or between Subscribers and third-party complainants or in respect to any dispute between Subscribers and an Entrust.net SSL Web Server Certification Authority or a Registration Authority operating under an Entrust.net SSL Web Server Certification Authority or between a third-party complainant and an Entrust.net SSL Web Server Certification Authority or a Registration Authority operating under an Entrust.net SSL Web Server Certification Authority arising out of any information in an Entrust.net SSL Web Server Certificate. Entrust.net SSL Web Server Certification Authorities and Registration Authorities operating under Entrust.net SSL Web Server Certification Authorities shall respectively have the right to revoke and the right to request revocation of Entrust.net SSL Web Server Certificates upon receipt of a properly authenticated order from an arbitrator or court of competent jurisdiction requiring the revocation of an Entrust.net SSL Web Server Certificate.

3.1.6 Recognition, Authentication and Role of Trademarks

An Entrust.net SSL Web Server Certification Authority or a Registration Authority operating under an Entrust.net SSL Web Server Certification Authority may, in certain circumstances, take action in respect to an Entrust.net SSL Web Server Certificate containing information that possibly violates the trademark rights of a third-party complainant. In the event that a third-party complainant provides an Entrust.net SSL Web Server Certification Authority or a Registration Authority operating under an Entrust.net SSL Web Server Certification Authority with (i) a certified copy that is not more than three (3) months old of a trademark registration from the principal trademark office in any one of the United States, Canada, Japan, Australia or any of the member countries of the European Union, and further provided that such registration is still in full force and effect, and (ii) a copy of a prior written notice to the Subscriber of the Entrust.net SSL Web Server Certificate in dispute, stating that the complainant believes that information in the Subscriber's Entrust.net SSL Web Server Certificate violates the trademark rights of the complainant, and

(iii) a representation by the complainant indicating the means of notice and basis for believing that such notice was received by the Subscriber of the Entrust.net SSL Web Server Certificate in dispute, an Entrust.net SSL Web Server Certification Authority or a Registration Authority operating under an Entrust.net SSL Web Server Certification Authority may initiate the following actions. The Entrust.net SSL Web Server Certification Authority or the Registration Authority operating under an Entrust.net SSL Web Server Certification Authority may determine whether the issue date of the Subscriber's Entrust.net SSL Web Server Certificate predates the registration date on the trademark registration provided by the complainant. If the date of issuance of the Subscriber's Entrust.net SSL Web Server Certificate predates the trademark registration date, the Entrust.net SSL Web Server Certification Authority or the Registration Authority operating under the Entrust.net SSL Web Server Certification Authority will take no further action unless presented with an authenticated order from an arbitrator or court of competent jurisdiction. If the date of issuance of the Entrust.net SSL Web Server Certificate is after the registration date on the trademark registration provided by the complainant, the Entrust.net SSL Web Server Certification Authority or the Registration Authority operating under the Entrust.net SSL Web Server Certification Authority shall request that the Subscriber provide a proof of ownership for the Subscriber's own corresponding trademark registration from the principal trademark office in any one of the United States, Canada, Japan, Australia or any of the member countries of the European Union. If the Subscriber can provide a certified copy, as set forth above, that predates or was issued on the same date as the complainant's trademark registration, the Entrust.net SSL Web Server Certification Authority or the Registration Authority operating under the Entrust.net SSL Web Server Certification Authority will take no further action unless presented with an authenticated order from an arbitrator or court of competent jurisdiction. If the Subscriber does not respond within ten (10) Business Days, or if the date on the certified copy of the trademark registration provided by the Subscriber postdates the certified copy of the trademark registration provided by the complainant, the Entrust.net SSL Web Server Certification Authority and the Registration Authorities operating under that Entrust.net SSL Web Server Certification Authority respectively may revoke or may request revocation of the disputed Entrust.net SSL Web Server Certificate.

If a Subscriber files litigation against a complainant, or if a complainant files litigation against a Subscriber, and such litigation is related to any information in an issued Entrust.net SSL Web Server Certificate, and if the party instigating the litigation provides an Entrust.net SSL Web Server Certification Authority or a Registration Authority operating under an Entrust.net SSL Web Server Certification Authority with a copy of the file-stamped complaint or statement of claim, the Entrust.net SSL Web Server Certification Authority will maintain the current status of the Entrust.net SSL Web Server Certificate or the Registration Authority operating under the Entrust.net SSL Web Server Certification Authority will request that the Entrust.net SSL Web Server Certification Authority maintain the current status of the Entrust.net SSL Web Server Certificate, subject to any requirements to change the status of such Entrust.net SSL Web Server Certificate otherwise provided or required under this Entrust.net SSL Web Server Certification Practice Statement, a Subscription Agreement, or any Relying Party Agreement. During any litigation, an Entrust.net SSL Web Server Certification Authority will not revoke and a Registration Authority operating under an Entrust.net SSL Web Server Certification Authority will not request revocation of an Entrust.net SSL Web Server Certificate that is in dispute unless ordered by an arbitrator or a court of competent jurisdiction or as otherwise provided or required under this Entrust.net SSL Web Server Certification Practice Statement, a Subscription Agreement, or any Relying Party Agreement. In the event of litigation as contemplated above, Entrust.net SSL Web Server Certification Authorities and Registration Authorities operating under the Entrust.net SSL Web Server Certification Authorities will comply with any directions by a court of competent jurisdiction in respect to an Entrust.net SSL Web Server Certificate in dispute without the necessity of being named as a party to the litigation. If named as a party in any litigation in respect to an Entrust.net SSL Web Server Certificate, Entrust.net and/or any third party operating a Registration Authority under an Entrust.net SSL Web Server Certification Authority shall be entitled to take any action that it deems appropriate in responding to or defending such litigation. Any Subscriber or Relying Party that becomes involved in any litigation in respect to an Entrust.net SSL Web Server Certificate shall remain subject to all of the terms and conditions of the Entrust.net SSL Web Server Certification Practice Statement, the Subscriber's Subscription Agreement, and the Relying Party's Relying Party Agreement.

Registration Authorities operating under an Entrust.net SSL Web Server Certification Authority shall notify the Entrust.net SSL Web Server Certification Authority of any disputes of which such Registration Authority is aware and which relate to any information contained in an Entrust.net SSL Web Server Certificate whose issuance was requested by such Registration Authority.

3.1.7 Method to Prove Possession of Private Key

Registration Authorities perform proof of possession tests for CSRs created using reversible asymmetric algorithms (such as RSA) by validating the signature on the CSR submitted by the Applicant with the Entrust.net SSL Web Server Certificate Application.

3.1.8 Authentication of Organizational Identity

Registration Authorities operating under the Entrust.net SSL Web Server Certification Authorities shall perform a limited verification of any organizational identities that are submitted by an Applicant or Subscriber. Registration Authorities operating under the Entrust.net SSL Web Server Certification Authorities shall determine whether the organizational identity, address, and domain name provided with an Entrust.net SSL Web Server Certificate Application are consistent with information contained in third-party databases and/or governmental sources. The information and sources used for the limited verification of Entrust.net SSL Web Server Certificate Applications may vary depending on the jurisdiction of the Applicant or Subscriber. In the case of organizational identities that are not registered with any governmental sources, Registration Authorities operating under the Entrust.net SSL Web Server Certification Authorities shall use commercially reasonable efforts to confirm the existence of the organization. Such commercially reasonable efforts may include inquiries with banks or other trustworthy persons or institutions. Registration Authorities operating under the Entrust.net SSL Web Server Certification Authorities shall comply with all verification practices mandated by the Entrust.net Policy Authority.

The Entrust.net Policy Authority may, in its discretion, update verification practices to improve the organization identity verification process. Any changes to verification practices shall be published pursuant to the standard procedures for updating the Entrust.net SSL Web Server Certification Practice Statement.

3.1.9 Authentication of Individual Identity

Registration Authorities operating under the Entrust.net SSL Web Server Certification Authorities shall perform a limited verification of any individual identities that are submitted by an Applicant or Subscriber. In order to establish the accuracy of an individual identity, the individual shall be required to appear before a representative of a Registration Authority operating under an Entrust.net SSL Web Server Certification Authority or a notary public in the jurisdiction of the Applicant. The individual shall be required to produce three (3) pieces of picture identification. The type of identification that is appropriate for proper identification shall be dependent on the jurisdiction of the Applicant.

The Entrust.net Policy Authority may, in its discretion, update verification practices to improve the individual identity verification process. Any changes to verification practices shall be published pursuant to the standard procedures for updating the Entrust.net SSL Web Server Certification Practice Statement.

3.2 Routine Rekey

Each Entrust.net SSL Web Server Certificate shall contain a Certificate expiration date. The reason for having an expiration date for a Certificate is to minimize the exposure of the Key Pair associated with the Certificate. For this reason, when processing a new Entrust.net SSL Web Server Certificate Application, Entrust.net requires that a new Key Pair be generated and that the new Public Key of this Key Pair be submitted with the Applicant's Entrust.net SSL Web Server Certificate Application. Entrust.net does not renew Entrust.net SSL Web Server Certificates, accordingly, if a Subscriber wishes to continue to use an Entrust.net SSL Web Server Certificate beyond the expiry date for the current Entrust.net SSL Web Server Certificate, the Subscriber must obtain a new Entrust.net SSL Web Server Certificate and replace the Entrust.net SSL Web Server Certificate that is about to expire. Subscribers submitting a new Entrust.net SSL Web Server Certificate Application will be required to complete the initial application process, as

described in Section 3.1, including generation of a new Key Pair and submission of all information required for an initial application for an Entrust.net SSL Web Server Certificate. The Registration Authority that processed the Subscriber's Entrust.net SSL Web Server Certificate Application shall make a commercially reasonable effort to notify Subscribers of the pending expiration of their Entrust.net SSL Web Server Certificate by sending an email to the technical contact listed in the corresponding Entrust.net SSL Web Server Certificate Application. Upon expiration of an Entrust.net SSL Web Server Certificate, the Subscriber shall immediately cease using such Entrust.net SSL Web Server Certificate and shall remove such Entrust.net SSL Web Server Certificate from any devices and/or software in which it has been installed.

3.3 Rekey After Revocation

Entrust.net SSL Web Server Certification Authorities and Registration Authorities operating under Entrust.net SSL Web Server Certification Authorities do not renew Entrust.net SSL Web Server Certificates that have been revoked. If a Subscriber wishes to use an Entrust.net SSL Web Server Certificate after revocation, the Subscriber must apply for a new Entrust.net SSL Web Server Certificate and replace the Entrust.net SSL Web Server Certificate that has been revoked. In order to obtain another Entrust.net SSL Web Server Certificate, the Subscriber will be required to complete the initial application process, as described in Section 3.1, including generation of a new Key Pair and submission of all information required for an initial application for an Entrust.net SSL Web Server Certificate. Upon revocation of an Entrust.net SSL Web Server Certificate, the Subscriber shall immediately cease using such Entrust.net SSL Web Server Certificate and shall remove such Entrust.net SSL Web Server Certificate from any devices and/or software in which it has been installed.

3.4 Revocation Request

A Subscriber may request revocation of their Entrust.net SSL Web Server Certificate at any time provided that the Subscriber can validate to the Registration Authority that processed the Subscriber's Entrust.net SSL Web Server Certificate Application that the Subscriber is the person, organization, or entity to whom the Entrust.net SSL Web Server Certificate was issued. The Registration Authority shall authenticate a request from a Subscriber for revocation of their Entrust.net SSL Web Server Certificate by requiring the pass phrase submitted by the Subscriber with the Entrust.net SSL Web Server Certificate Application and/or some subset of the information provided by the Subscriber with the Entrust.net SSL Web Server Certificate Application. Upon receipt and confirmation of such information, the Registration Authority shall then request revocation of the Subscriber's Entrust.net SSL Web Server Certificate within forty-eight (48) hours of validating the revocation request, and an Entrust.net SSL Web Server Certification Authority shall subsequently post the serial number of the revoked Entrust.net SSL Web Server Certificate to a CRL in an Entrust.net Repository. Registration Authorities operating under the Entrust.net SSL Web Server Certification Authority shall use commercially reasonable efforts to notify a Subscriber about the revocation of the Subscriber's Entrust.net SSL Web Server Certificate by sending an email to the technical and security contacts identified in the Subscriber's Entrust.net SSL Web Server Certificate Application.

4 Operational Requirements

4.1 Certificate Application

To obtain an Entrust.net SSL Web Server Certificate, an Applicant must follow the procedures described in section 3.1 of the Entrust.net SSL Web Server Certification Practice Statement. An Entrust.net-operated Registration Authority or an independent third-party Registration Authority operating under an Entrust.net SSL Web Server Certification Authority shall follow the procedures described in Sections 3.1.8 and 3.1.9 to perform limited verification of the identity of the Applicant.

4.2 Certificate Issuance

After performing limited verification of the information provided by an Applicant with an Entrust.net SSL Web Server Certificate Application, a Registration Authority operating under an Entrust.net SSL Web Server Certification Authority may request that an Entrust.net SSL Web Server Certification Authority issue an Entrust.net SSL Web Server Certificate. Upon receipt of a request from a Registration Authority operating under an Entrust.net SSL Web Server Certification Authority, that Entrust.net SSL Web Server Certification Authority may generate and digitally sign an Entrust.net SSL Web Server Certificate in accordance with the Certificate profile described in Section 7 of this Entrust.net SSL Web Server Certification Practice Statement.

4.3 Certificate Acceptance

Once an Entrust.net SSL Web Server Certificate has been generated and placed in an Entrust.net Repository, the Registration Authority that requested the issuance of the Entrust.net SSL Web Server Certificate shall use commercially reasonable efforts to notify the Applicant by email that the Applicant's Entrust.net SSL Web Server Certificate is available. The email will contain a URL for use by the Applicant to retrieve the Entrust.net SSL Web Server Certificate.

4.4 Certificate Suspension and Revocation

An Entrust.net SSL Web Server Certification Authority shall revoke an Entrust.net SSL Web Server Certificate after receiving a valid revocation request from a Registration Authority operating under such Entrust.net SSL Web Server Certification Authority. A Registration Authority operating under an Entrust.net SSL Web Server Certification Authority shall be entitled to request and may request that an Entrust.net SSL Web Server Certification Authority revoke an Entrust.net SSL Web Server Certificate after such Registration Authority receives a valid revocation request from the Subscriber for such Entrust.net SSL Web Server Certificate. A Registration Authority operating under an Entrust.net SSL Web Server Certification Authority shall be entitled to request and shall request that an Entrust.net SSL Web Server Certification Authority revoke an Entrust.net SSL Web Server Certificate if such Registration Authority becomes aware of the occurrence of any event that would require a Subscriber to cease to use such Entrust.net SSL Web Server Certificate. Entrust.net SSL Web Server Certification Authorities do not allow the suspension of Entrust.net SSL Web Server Certificates.

4.4.1 Circumstances for Revocation

An Entrust.net SSL Web Server Certification Authority shall be entitled to revoke and may revoke, and a Registration Authority operating under an Entrust.net SSL Web Server Certification Authority shall be entitled to request revocation of and shall request revocation of, a Subscriber's Entrust.net SSL Web Server Certificate if such Entrust.net SSL Web Server Certification Authority or Registration Authority has knowledge of or a reasonable basis for believing that of any of the following events have occurred:

- (i) Compromise of such Entrust.net SSL Web Server Certification Authority's Private Key or Compromise of a superior Certification Authority's Private Key;

- (ii) breach by the Subscriber of any of the terms of the Entrust.net SSL Web Server Certification Practice Statement or the Subscriber's Subscription Agreement;
- (iii) any change in the information contained in an Entrust.net SSL Web Server Certificate issued to a Subscriber;
- (v) non-payment of any Entrust.net SSL Web Server Certificate fees or service fees;
- (vi) a determination that an Entrust.net SSL Web Server Certificate was not issued in accordance with the requirements of the Entrust.net SSL Web Server Certification Practice Statement or the Subscriber's Subscription Agreement; or
- (vi) any other reason that may be reasonably expected to affect the integrity, security, or trustworthiness of an Entrust.net SSL Web Server Certificate or an Entrust.net SSL Web Server Certification Authority.

A Subscriber shall request revocation of their Entrust.net SSL Web Server Certificate if the Subscriber has a suspicion or knowledge of a Compromise of the Subscriber's Private Key or a suspicion or knowledge of a change in the information contained in the Subscriber's Entrust.net SSL Web Server Certificate or a change in circumstances that causes the information contained in Subscriber's Entrust.net SSL Web Server Certificate to become inaccurate, incomplete, or misleading. Such revocation request shall be submitted by the Subscriber to the Registration Authority that processed the Subscriber's Entrust.net SSL Web Server Certificate Application. If a Subscriber's Entrust.net SSL Web Server Certificate is revoked for any reason, the Registration Authority that processed the Subscriber's Entrust.net SSL Web Server Certificate Application shall make a commercially reasonable effort to notify such Subscriber by sending an email to the technical and security contacts listed in the Entrust.net SSL Web Server Certificate Application. Revocation of an Entrust.net SSL Web Server Certificate shall not affect any of the Subscriber's contractual obligations under this Entrust.net SSL Web Server Certification Practice Statement, the Subscriber's Subscription Agreement, or any Relying Party Agreements.

4.4.2 Who Can Request Revocation

A Subscriber may request revocation of their Entrust.net SSL Web Server Certificate at any time for any reason. If a Subscriber requests revocation of their Entrust.net SSL Web Server Certificate, the Subscriber must be able to validate themselves as set forth in Section 3.4 to the Registration Authority that processed the Subscriber's Entrust.net SSL Web Server Certificate Application. The Entrust.net SSL Web Server Certification Authorities shall not be required to revoke and the Registration Authorities operating under the Entrust.net SSL Web Server Certification Authorities shall not be required to request revocation of an Entrust.net SSL Web Server Certificate until a Subscriber can properly validate themselves as set forth in Section 3.4 and 4.4.3. An Entrust.net SSL Web Server Certification Authority shall be entitled to revoke and shall revoke, and a Registration Authority operating under an Entrust.net SSL Web Server Certification Authority shall be entitled to request revocation of and shall request revocation of, a Subscriber's Entrust.net SSL Web Server Certificate at any time for any of the reasons set forth in Section 4.4.1.

4.4.3 Procedure for Revocation Request

A Registration Authority operating under an Entrust.net SSL Web Server Certification Authority shall authenticate a request by a Subscriber for revocation of their Entrust.net SSL Web Server Certificate by requiring (i) some subset of the information provided by the Subscriber with the Subscriber's Entrust.net SSL Web Server Certificate Application, or (ii) the pass phrase submitted by the Subscriber with the Subscriber's Entrust.net SSL Web Server Certificate Application or verification by a contact at the Subscriber. Upon receipt and confirmation of such information, the Registration Authority shall send a revocation request to the Entrust.net SSL Web Server Certification Authority that issued such Entrust.net SSL Web Server Certificate. The Entrust.net SSL Web Server Certification Authority receiving such revocation request shall within forty-eight (48) hours of receiving such revocation request post the serial number of the revoked Entrust.net SSL Web Server Certificate to a CRL in an Entrust.net Repository. If a Subscriber's Entrust.net SSL Web Server Certificate is revoked for any reason, the Registration Authority that requested revocation of the Subscriber's Entrust.net SSL Web Server Certificate shall make a commercially reasonable effort to notify the Subscriber by sending an email to the technical and security contacts specified in the Subscriber's Entrust.net SSL Web Certificate Application.

4.4.4 Revocation Request Grace Period

In the case of Private Key Compromise, or suspected Private Key Compromise, a Subscriber shall request revocation of the corresponding Entrust.net SSL Web Server Certificate immediately upon detection of the Compromise or suspected Compromise. Revocation requests for other required reasons shall be made as soon as reasonably practicable.

4.4.5 Circumstances for Suspension

Entrust.net SSL Web Server Certification Authorities do not suspend Entrust.net SSL Web Server Certificates.

4.4.6 Who Can Request Suspension

Entrust.net SSL Web Server Certification Authorities do not suspend Entrust.net SSL Web Server Certificates.

4.4.7 Procedure for Suspension Request

Entrust.net SSL Web Server Certification Authorities do not suspend Entrust.net SSL Web Server Certificates.

4.4.8 Limits on Suspension Period

Entrust.net SSL Web Server Certification Authorities do not suspend Entrust.net SSL Web Server Certificates.

4.4.9 CRL Issuance Frequency

Entrust.net SSL Web Server Certification Authorities shall use commercially reasonable efforts to issue CRLs at least once every twenty-four (24) hours. CRLs will generally be issued at approximately 12.00 a.m. In certain circumstances, CRLs may also be issued between these intervals, such as in the event of the detection of a serious Compromise.

4.4.10 CRL Checking Requirements

A Relying Party shall check whether the Entrust.net SSL Web Server Certificate that the Relying Party wishes to rely on has been revoked. A Relying Party shall check the Certificate Revocation Lists maintained in the appropriate Repository to determine whether the Entrust.net SSL Web Server Certificate that the Relying Party wishes to rely on has been revoked. In no event shall Entrust.net or any independent third-party Registration Authorities operating under an Entrust.net SSL Web Server Certification Authority, or any Resellers or Co-marketers, or any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing be liable for any damages whatsoever due to (i) the failure of a Relying Party to check for revocation or expiration of an Entrust.net SSL Web Server Certificate, or (ii) any reliance by a Relying Party on an Entrust.net SSL Web Server Certificate that has been revoked or that has expired.

4.4.11 On-line Revocation/Status Checking Availability

The CRLs in an Entrust.net Repository may be searched by serial number.

4.4.12 On-line Revocation Checking Requirements

See Section 4.4.10.

4.4.13 Other Forms of Revocation Advertisements Available

No other mechanisms are provided.

4.4.14 Checking Requirements For Other Forms of Revocation Advertisements

No stipulation.

4.4.15 Special Requirements Re Key Compromise

If a Subscriber suspects or knows that the Private Key corresponding to the Public Key contained in the Subscriber's Entrust.net SSL Web Server Certificate has been Compromised, the Subscriber shall immediately notify the Registration Authority that processed the Subscriber's Entrust.net SSL Web Server Certificate Application, using the procedures set forth in Section 4.4.3, of such suspected or actual Compromise. The Subscriber shall immediately stop using such Entrust.net SSL Web Server Certificate and shall remove such Entrust.net SSL Web Server Certificate from any devices and/or software in which such Entrust.net SSL Web Server Certificate has been installed. The Subscriber shall be responsible for investigating the circumstances of such Compromise or suspected Compromise and for notifying any Relying Parties that may have been affected by such Compromise or suspected Compromise.

4.5 Security Audit Procedures

Significant security events in the Entrust.net SSL Web Server Certification Authorities are automatically time-stamped and recorded as audit logs in audit trail files. The audit trail files are processed (reviewed for policy violations or other significant events) on a regular basis. Authentication codes are used in conjunction with the audit trail files to protect against modification of audit logs. Audit trail files are archived periodically. All files including the latest audit trail file are moved to backup media and stored in a secure archive facility.

4.6 Records Archival

The audit trail files and databases for Entrust.net SSL Web Server Certification Authorities are both archived. The archive of an Entrust.net SSL Web Server Certification Authorities' database is retained for at least three (3) years. Archives of audit trail files are retained for at least one (1) year. The databases for Entrust.net SSL Web Server Certification Authorities are encrypted and protected by Entrust software master keys. The archive media is protected through storage in a restricted-access facility to which only Entrust.net-authorized personnel have access. Archive files are backed up as they are created. Originals are stored on-site and housed with an Entrust.net SSL Web Server Certification Authority system. Backup files are stored at a secure and separate geographic location.

4.7 Key Changeover

Subscribers are issued Entrust.net SSL Web Server Certificates that expire after a defined period of time to minimize the exposure of the associated Key Pair. For this reason, a new Key Pair must be created and that new Public Key must be submitted with each Entrust.net SSL Web Server Certificate Application to replace an expiring Entrust.net SSL Web Server Certificate. The process for renewing an Entrust.net SSL Web Server Certificate is described in Section 3.2.

4.8 Compromise and Disaster Recovery

Entrust.net SSL Web Server Certification Authorities have a disaster recovery plan to provide for timely recovery of services in the event of a system outage.

Entrust.net requires rigorous security controls to maintain the integrity of Entrust.net SSL Web Server Certification Authorities. The Compromise of the Private Key used by an Entrust.net SSL Web Server Certification Authority is viewed by Entrust.net as being very unlikely, however, Entrust.net has policies and procedures that will be employed in the event of such a Compromise. At a minimum, all Subscribers shall be informed as soon as practicable of such a Compromise and information shall be posted in the Entrust.net Repository.

4.9 CA Termination

In the event that an Entrust.net SSL Web Server Certification Authority ceases operation, all Entrust.net SSL Web Server Certificates issued by such Entrust.net SSL Web Server Certification Authority shall be revoked.

5 Physical, Procedural, and Personnel Security Controls

5.1 Physical Controls

Entrust/Authority™ software is used as the software component of the Entrust.net SSL Web Server Certification Authorities. The hardware and software for an Entrust.net SSL Web Server Certification Authority is located in a secure facility with physical security and access control procedures that meet or exceed industry standards. The room containing the Entrust/Authority software is designated a two (2) person zone, and controls are used to prevent a person from being in the room alone. Alarm systems are used to notify security personnel of any violation of the rules for access to an Entrust.net SSL Web Server Certification Authority.

5.2 Procedural Controls

An Entrust.net SSL Web Server Certification Authority has a number of trusted roles for sensitive operations of the Entrust.net SSL Web Server Certification Authority software. To gain access to the Entrust/Authority software used in an Entrust.net SSL Web Server Certification Authority, operational personnel must undergo background investigations. Entrust.net SSL Web Server Certification Authority operations related to adding administrative personnel or changing Certification Authority policy settings require more than one (1) person to perform the operation.

5.3 Personnel Controls

Operational personnel for an Entrust.net SSL Web Server Certification Authority will not be assigned other responsibilities that conflict with their operational responsibilities for the Entrust.net SSL Web Server Certification Authority. The privileges assigned to operational personnel for an Entrust.net SSL Web Server Certification Authority will be limited to the minimum required to carry out their assigned duties.

6 Technical Security Controls

6.1 Key Pair Generation and Installation

6.1.1 Key Pair Generation

The signing Key Pair for an Entrust.net SSL Web Server Certification Authority is created during the initial start up of the Entrust/Master Control application and is protected by the master key for such Entrust.net SSL Web Server Certification Authority. Hardware key generation is used which is compliant to at least FIPS 140-1 level 3.

6.1.2 Private Key Delivery to Entity

Not applicable.

6.1.3 Public Key Delivery to Certificate Issuer

The Public Key to be included in an Entrust.net SSL Web Server Certificate is delivered to Entrust.net SSL Web Server Certification Authorities in a Certificate Signing Request (CSR) as part of the Entrust.net SSL Web Server Certificate Application process.

6.1.4 CA Public Key Delivery to Users

The Public-Key Certificate for Entrust.net SSL Web Server Certification Authorities is cross certified by the Thawte Certification Authority. The self-signed Public-Key Certificate for the Thawte Certification Authority is pre-installed in common World Wide Web browser and web server software by the applicable software manufacturers.

6.1.5 Key Sizes

The SSL server key sizes are determined by the Subscriber's World Wide Web server software.

6.1.6 Public-Key Parameters Generation

The Subscriber's World Wide Web server software controls which Public-Key parameters are used.

6.1.7 Parameter Quality Checking

The quality of the Public-Key parameters is governed by the Subscriber's World Wide Web server software that generates the parameters. Neither Entrust.net nor any independent third-party Registration Authority operating under an Entrust.net SSL Web Server Certification Authority, nor any Resellers or Co-marketers, or any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing make any representations or provide any representations, warranties or conditions whatsoever about the quality of the Public Key contained in an Entrust.net SSL Web Server Certificate.

6.1.8 Hardware/Software Key Generation

The method for generating the Subscriber's Key Pair associated with an Entrust.net SSL Web Server Certificate is solely under the control of the Subscriber, and neither Entrust.net nor any independent third-party Registration Authority operating under an Entrust.net SSL Web Server Certification Authority, nor any Resellers or Co-marketers, or any subcontractors, distributors, agents, suppliers, employees, or directors of any of the foregoing shall have any responsibility or liability whatsoever for the generation of the Subscriber's Key Pair.

6.1.9 Key Usage Purposes

Entrust.net SSL Web Server Certificates issued by an Entrust.net SSL Web Server Certification Authority contain the keyUsage and the extendkeyUsage Certificate extensions restricting the purpose for which an Entrust.net SSL Web Server Certificate can be used. Subscribers and Relying Parties shall only use

Entrust.net SSL Web Server Certificates in compliance with this Entrust.net SSL Web Server Certification Practice Statement and applicable laws.

6.2 Private Key Protection

The Entrust.net SSL Web Server Certification Authorities use Entrust/Authority software in conjunction with hardware certified to FIPS 140-1 level 3 to protect the Entrust.net SSL Web Server Certification Authorities' Private Keys. Subscribers are responsible for protecting the Private Key associated with the Public Key in the Subscriber's Entrust.net SSL Web Server Certificate. Entrust.net does not escrow the Entrust.net SSL Web Server Certification Authorities' Private Keys.

6.3 Other Aspects of Key Pair Management

No stipulation.

6.4 Activation Data

No stipulation.

6.5 Computer Security Controls

The workstations on which the Entrust.net SSL Web Server Certification Authorities operate are physically secured as described in Section 5.1 of this Entrust.net SSL Web Server Certification Practice Statement. The operating systems on the workstations on which the Entrust.net SSL Web Server Certification Authorities operate enforce identification and authentication of users. Access to Entrust/Authority software databases and audit trails is restricted as described in this Entrust.net SSL Web Server Certification Practice Statement. All operational personnel that are authorized to have access to the Entrust.net SSL Web Server Certification Authorities are required to use hardware tokens in conjunction with a PIN to gain access to the physical room that contains the Entrust/Authority software being used for such Entrust.net SSL Web Server Certification Authorities.

6.6 Life Cycle Technical Controls

The efficacy and appropriateness of the security settings described in this Entrust.net SSL Web Server Certification Practice Statement are reviewed on a yearly basis. A risk and threat assessment will be performed to determine if key lengths need to be increased or operational procedures modified from time to time to maintain system security.

6.7 Network Security Controls

Remote access to Entrust/Authority software via the Entrust/Admin software interface is secured using the security features of the Secure Exchange Protocol and Entrust/Session software.

6.8 Cryptographic Module Engineering Controls

The Entrust/Authority software cryptographic module is designed to conform to FIPS 140-1 level 1 requirements. Optional hardware tokens may be used to generate Key Pairs that may conform with higher levels of FIPS validation, but which must at least conform to level 1.

7 Certificate and CRL Profiles

7.1 Certificate Profile

The profile for the Entrust.net SSL Web Server Certificates issued by an Entrust.net SSL Web Server Certification Authority conform to the specifications for the Secure Sockets Layer protocol.

7.2 CRL Profile

The following fields of the X.509 version 2 CRL format are used by the Entrust.net SSL Web Server Certification Authorities:

- version: set to v2
- signature: identifier of the algorithm used to sign the CRL
- issuer: the full Distinguished Name of the Certification Authority issuing the CRL
- this update: time of CRL issuance
- next update: time of next expected CRL update
- revoked certificates: list of revoked Certificate information

8 Specification Administration

8.1 Contact Information

Director Operations, Entrust.net Inc.
Entrust.net Inc
1000 Innovation Drive
Ottawa, Ontario
Canada K2K 3E7

Tel: (613) 270-3742
Email: entrust.OA@entrust.net

8.2 Specification Change Procedures

Entrust.net may, in its discretion, modify the Entrust.net SSL Web Server Certification Practice Statement and the terms and conditions contained herein from time to time. Modifications to the Entrust.net SSL Web Server Certification Practice Statement that, in the judgment of Entrust.net, will have little or no impact on Applicants, Subscribers, and Relying Parties, may be made with no change to the Entrust.net SSL Web Server Certification Practice Statement version number and no notification to Applicants, Subscribers, and Relying Parties. Such changes shall become effective immediately upon publication in the Entrust.net Repository.

Modifications to the Entrust.net SSL Web Server Certification Practice Statement that, in the judgment of Entrust.net may have a significant impact on Applicants, Subscribers, and Relying Parties, shall be published in the Entrust.net Repository and shall become effective fifteen (15) days after publication in the Entrust.net Repository unless Entrust.net withdraws such modified Entrust.net SSL Web Server Certification Practice Statement prior to such effective date. In the event that Entrust.net makes a significant modification to Entrust.net SSL Web Server Certification Practice Statement, the version number of the Entrust.net SSL Web Server Certification Practice Statement shall be updated accordingly. Unless a Subscriber ceases to use, removes, and requests revocation of such Subscriber's Entrust.net SSL Web Server Certificate(s) prior to the date on which an updated version of the Entrust.net SSL Web Server Certification Practice Statement becomes effective, such Subscriber shall be deemed to have consented to the terms and conditions of such updated version of the Entrust.net SSL Web Server Certification Practice Statement and shall be bound by the terms and conditions of such updated version of the Entrust.net SSL Web Server Certification Practice Statement.

8.3 Publication and Notification Policies

Prior to major changes to this Entrust.net SSL Web Server Certification Practice Statement, notification of the upcoming changes will be posted in the Entrust.net Repository.

8.4 CPS Approval Procedures

This Entrust.net SSL Web Server Certification Practice Statement and any subsequent changes shall be approved by the Entrust.net Policy Authority.

9 Acronyms

CA	Certification Authority
CPS	Certification Practice Statement
CRL	Certificate Revocation List
CSR	Certificate Signing Request
DN	Distinguished Name
DNS	Domain Name Server
DSA	Digital Signature Algorithm
HTTP	Hypertext Transfer Protocol
IETF	Internet Engineering Task Force
ITU-T	International Telecommunication Union - Telecommunication Standardization Sector
MAC	Message Authentication Code
OA	Operational Authority
OID	Object Identifier
PA	Policy Authority
PIN	Personal Identification Number
PKI	Public-Key Infrastructure
RA	Registration Authority
RDN	Relative Distinguished Name

SEP	Secure Exchange Protocol
SSL	Secure Sockets Layer
URL	Universal Resource Locator

10 Definitions

Affiliate: means Entrust Technologies Inc., and any corporation or other entity that Entrust Technologies Inc. directly or indirectly controls. In this context, a party “controls” a corporation or another entity if it directly or indirectly owns or controls fifty percent (50%) or more of the voting rights for the board of directors or other mechanism of control.

Applicant: means a person, entity, or organization applying for an Entrust.net SSL Web Server Certificate, but which has not yet been issued an Entrust.net SSL Web Server Certificate, or a person, entity, or organization that currently has an Entrust.net SSL Web Server Certificate or Entrust.net SSL Web Server Certificates and that is applying for renewal of such Entrust.net SSL Web Server Certificate or Entrust.net SSL Web Server Certificates or for an additional Entrust.net SSL Web Server Certificate or Entrust.net SSL Web Server Certificates.

Business Day: means any day, other than a Saturday, Sunday, statutory or civic holiday in the City of Ottawa, Ontario.

Certificate: means a digital document that at a minimum: (a) identifies the Certification Authority issuing it, (b) names or otherwise identifies a Subject, (c) contains a Public Key of a Key Pair, (d) identifies its operational period, and (e) contains a serial number and is digitally signed by a Certification Authority.

Certificate Revocation List: means a time-stamped list of the serial numbers of revoked Certificates that has been digitally signed by a Certification Authority.

Certification Authority: means an entity or organization that (i) creates and digitally signs Certificates that contain among other things a Subject’s Public Key and other information that is intended to identify the Subject, (ii) makes Certificates available to facilitate communication with the Subject identified in the Certificate, and (iii) creates and digitally signs Certificate Revocation Lists containing information about Certificates that have been revoked and which should no longer be used or relied upon.

Certification Practice Statement: means a statement of the practices that a Certification Authority uses in issuing, managing, revoking, renewing, and providing access to Certificates, and the terms and conditions under which the Certification Authority makes such services available.

Co-marketers: means any person, entity, or organization that has been granted by Entrust.net or a Registration Authority operating under an Entrust.net SSL Web Server Certification Authority the right to promote Entrust.net SSL Web Server Certificates.

Compromise: means a suspected or actual loss, disclosure, or loss of control over sensitive information or data.

CPS: see Certification Practice Statement.

CRL: see Certificate Revocation List.

Cross Certificate(s): shall mean a Certificate(s) that (i) includes the public key of a public-private key pair generated by or for the Entrust.net Certification Authority; (ii) includes the digital signature of a Certification Authority operated by Thawte Consulting (Pty) Ltd. (“Thawte”) or its successors; (iii) allows verification of a Subscriber’s public key SSL Certificate through the use of a Thawte public key Certificate; and (iv) has an expiry date on or before May 25, 2003.

Entrust.net: means Entrust.net Inc.

Entrust.net Operational Authority: means those personnel who work for or on behalf of Entrust.net and who are responsible for the operation of the Entrust.net SSL Web Server Certification Authorities.

Entrust.net Policy Authority: means those personnel who work for or on behalf of Entrust.net and who are responsible for determining the policies and procedures that govern the operation of the Entrust.net SSL Web Server Certification Authorities.

Entrust.net Repository: means a collection of databases and web sites that contain information about Entrust.net SSL Web Server Certificates and services provided by Entrust.net in respect to Entrust.net SSL

Web Server Certificates, including among other things, the types of Entrust.net SSL Web Server Certificates issued by the Entrust.net SSL Web Server Certification Authorities, the services provided by Entrust.net in respect to Entrust.net SSL Web Server Certificates, the fees charged by Entrust.net for Entrust.net SSL Web Server Certificates and for the services provided by Entrust.net in respect to Entrust.net SSL Web Server Certificates, Certificate Revocation Lists, the Entrust.net SSL Web Server Certification Practice Statement, and other information and agreements that are intended to govern the use of Entrust.net SSL Web Server Certificates.

Entrust.net SSL Web Server Certification Authority: means a Certification Authority operated by or on behalf of Entrust.net for the purpose of issuing, managing, revoking, renewing, and providing access to Entrust.net SSL Web Server Certificates.

Entrust.net SSL Web Server Certification Practice Statement: means this document.

Entrust.net SSL Web Server CPS: See Entrust.net SSL Web Server Certification Practice Statement.

Entrust.net SSL Web Server Certificate: means an SSL Certificate issued by an Entrust.net SSL Web Server Certification Authority for use on World Wide Web servers.

Entrust.net SSL Web Server Certificate Application: means the form and application information requested by a Registration Authority operating under an Entrust.net SSL Web Server Certification Authority and submitted by an Applicant when applying for the issuance of an Entrust.net SSL Web Server Certificate.

FIPS: means the Federal Information Processing Standards. These are U.S. Federal standards that prescribe specific performance requirements, practices, formats, communication protocols, and other requirements for hardware, software, data, and telecommunications operation.

IETF: means the Internet Engineering Task Force. The Internet Engineering Task Force is an international community of network designers, operators, vendors, and researchers concerned with the evolution of the Internet architecture and the efficient operation of the Internet.

Key Pair: means two mathematically related cryptographic keys, having the properties that (i) one key can be used to encrypt a message that can only be decrypted using the other key, and (ii) even knowing one key, it is believed to be computationally infeasible to discover the other key.

Object Identifier: means a specially-formatted sequence of numbers that is registered in accordance with internationally-recognized procedures for object identifier registration.

OID: see Object Identifier.

Operational Period: means, with respect to a Certificate, the period of its validity. The Operational Period would typically begin on the date the Certificate is issued (or such later date as specified in the Certificate), and ends on the date and time it expires as noted in the Certificate or earlier if the Certificate is Revoked.

PKIX: means an IETF Working Group developing technical specifications for PKI components based on X.509 Version 3 Certificates.

Private Key: means the key of a Key Pair used to decrypt an encrypted message. This key must be kept secret.

Public Key: means the key of a Key Pair used to encrypt a message. The Public Key can be made freely available to anyone who may want to send encrypted messages to the holder of the Private Key of the Key Pair. The Public Key is usually made publicly available in a Certificate issued by a Certification Authority and is often obtained by accessing a repository or database. A Public Key is used to encrypt a message that can only be decrypted by the holder of the corresponding Private Key.

RA: see Registration Authority.

Registration Authority: means an entity that performs two functions: (1) the receipt of information from a Subject to be named in a Certificate, and (2) the performance of limited verification of information provided by the Subject against information available in certain third-party databases. In the event that the

information provided by a Subject corresponds to the information in such third-party databases a Registration Authority may send a request to a Certification Authority requesting that the Certification Authority generate, digitally sign, and issue a Certificate containing the information verified by the Registration Authority.

Relying Party: means a person, entity, or organization that relies on or uses an Entrust.net SSL Web Server Certificate and/or any other information provided in a Repository under an Entrust.net SSL Web Server Certification Authority to obtain and confirm the Public Key and identity of a Subscriber.

Relying Party Agreement: means the agreement between a Relying and Entrust.net or between a Relying Party and an independent third-party Registration Authority or Reseller under an Entrust.net SSL Web Server Certification Authority in respect to the provision and use of certain information and services in respect to Entrust.net SSL Web Server Certificates.

Repository: means a collection of databases and web sites that contain information about Certificates issued by a Certification Authority including among other things, the types of Certificates and services provided by the Certification Authority, fees for the Certificates and services provided by the Certification Authority, Certificate Revocation Lists, descriptions of the practices and procedures of the Certification Authority, and other information and agreements that are intended to govern the use of Certificates issued by the Certification Authority.

Resellers: means any person, entity, or organization that has been granted by Entrust.net or a Registration Authority operating under an Entrust.net SSL Web Server Certification Authority the right to license the right to use Entrust.net SSL Web Server Certificates.

Revoke or Revocation: means, with respect to a Certificate, to prematurely end the Operational Period of that Certificate from a specified time forward.

Subject: means a person, entity, or organization whose Public Key is contained in a Certificate.

Subscriber: means a person, entity, or organization that has applied for and has been issued an Entrust.net SSL Web Server Certificate.

Subscription Agreement: means the agreement between a Subscriber and Entrust.net or between a Subscriber and an independent third-party Registration Authority or Reseller under an Entrust.net SSL Web Server Certification Authority in respect to the issuance, management, and provision of access to an Entrust.net SSL Web Server Certificate and the provision of other services in respect to such Entrust.net SSL Web Server Certificate.
