

Carbon Reduction Plan

Supplier name: Entrust Corporation

Publication date: 1st June 2022

Commitment To Achieving Net Zero

Entrust Corporation has appointed Delta-Simons Ltd to support in the development of a baseline carbon emissions footprint, and the production of a meaningful strategy for reduction of operational emissions to achieve Net-Zero as early as possible.

Entrust Corporation is committed to achieving Net Zero emissions for Scope 1, 2 and relevant Scope 3 sources **no later than 2050**.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

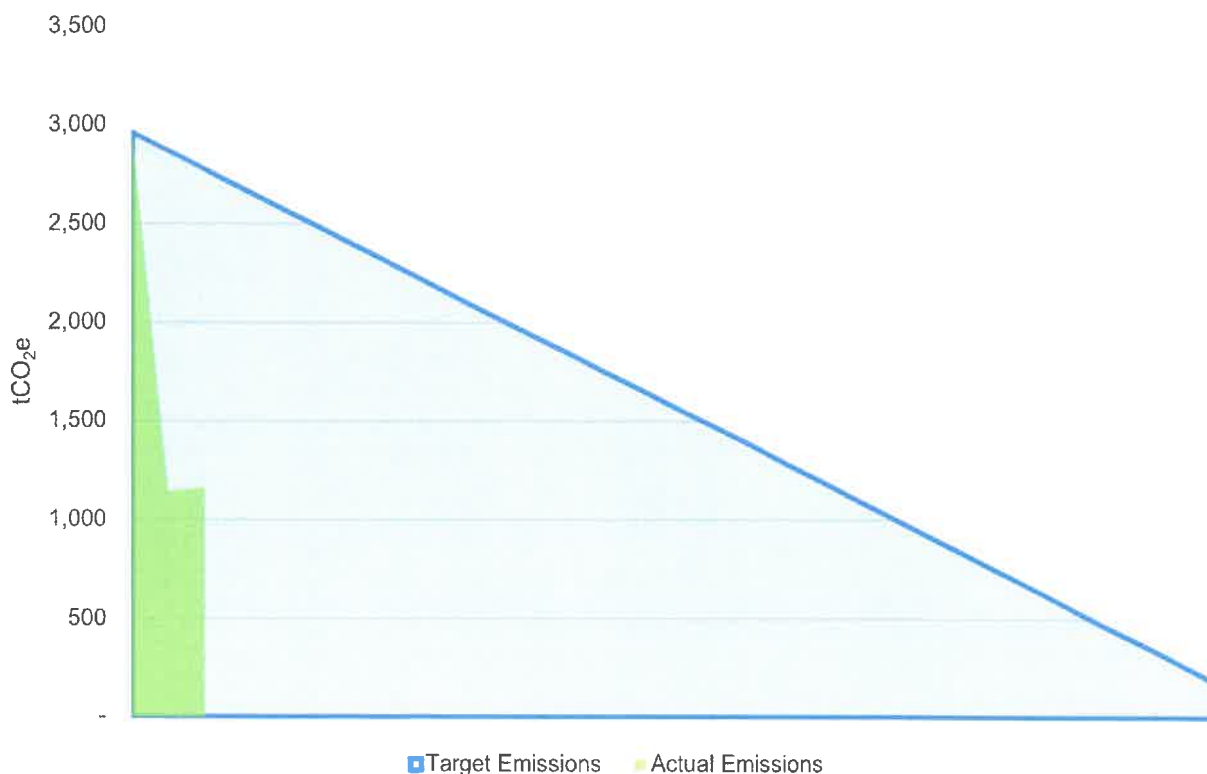

Baseline Year: 1st April 2019 to 31st March 2020	
Additional Details relating to the Baseline Emissions calculations.	
Historic baseline which originates from the requirements under this measure. There has been no previous carbon reporting related to PPN06/21 or otherwise.	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	231.18 tCO₂e
Scope 2	607.75 tCO₂e
Scope 3 (Included Sources)	2,121.60 tCO₂e
Total Emissions	2,960.53 tCO₂e

Current Emissions Reporting

Reporting Year: 1 st April 2021 to 31 st March 2022	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	169.64 tCO ₂ e
Scope 2	523.21 tCO ₂ e
Scope 3 (Included Sources)	469.62 tCO ₂ e
Total Emissions	1,162.47 tCO₂e

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets. We project that carbon emissions will decrease over the next 28no. years to c. 176 tCO₂e by 2050. This is a reduction of 94%. Progress against these targets can be seen in the graph below:

Please note that progress against the target emissions is currently significantly impacted by a large reduction in flight emissions due to global COVID-19 restrictions.

Carbon Reduction Projects

Entrust Corporation operates in a way that is considerate of its environmental impact, and through the use of agile and home workers has worked to limit the need for business travel and employee commuting.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
