English, German, French, Spanish (Latin America), Portuguese (Brazil), Russian, Japanese, Korean, Simplified Chinese, Arabic. The following languages were translated previously, but were not updated: Italian, Traditional Chinese, Polish. (Languages not listed display in English during installation.)
- 

## New Features

- Added Kiosk support for Sigma DS4K and DS4-ES1K printers
  - Added support for Sigma DS2 laminator
  - Added sample bitmaps for 300x600 and 300x1200 for k-panel data masking.
- 

## Card Printer Driver SDK

Use the version 8.2 SDK with the version 8.2 Card Printer Driver.

---

## Known Issues and Restrictions

- The silentinstall.cmd does not install the magnetic stripe font support files (MagstripeFonts and LegacyMagstripeFonts). If you need to install the magnetic stripe font support files, use the Installation CD, a downloaded file, or the QuickInstaller.
- Applications that use Microsoft WPF to print cannot create a printer pool using the built-in Microsoft pooling feature. Microsoft has acknowledged that this is a defect and has stated that it will be fixed. However, no timeframe has been provided. Until then, you can use Frogmore Print Distributor to create a printer pool for WPF applications.
- Error messages sometimes do not display on the PC that sent the print job. Restart the PC to resolve the issue.
