

Cryptographic Security Platform – Compliance Manager Installation

Expert Assistance With Installation and Configuration.

Service Overview

Entrust Cryptographic Security Platform Compliance Manager Installation Service provides an Entrust professional services team member for the basic deployment and configuration of up to three nodes to support your Cryptographic Security Platform infrastructure.

Scope & Approach

Our approach is informed by years of experience installing, configuring, and deploying Compliance Manager and its related components. Our methodology is designed to accelerate the start of your platform infrastructure and leave you with the foundation necessary to operate, including:

- Prerequisite review of your system architecture
- Installation up to three nodes of Compliance Manager deployed in a new cluster
- Configuration of Compliance Manager in preparation for your business use case(s)
- Review of operational best practices such as backup, restore, high-availability, and disaster recovery scenarios

Benefits

- **Quick time-to-value:**
Our consultants' product expertise accelerates deployment of the Cryptographic Security Platform Compliance Manager
- **Deployment aligned with industry best practices:**
You gain the benefits of our extensive knowledge base of product optimizations and optimal configurations
- **Mitigation of potential installation issues:**
We move quickly past implementation roadblocks and work seamlessly with product support on your behalf
- **Knowledge transfer of functionality and troubleshooting:**
Your team gains foundational experience during the deployment
