

## INDEPENDENT ASSURANCE REPORT

To the management of Entrust Corporation ("Entrust"):

### Scope

We have been engaged, in a reasonable assurance engagement, to report on Entrust management's [statement](#) that for its Certification Authority ("CA") operations in Ottawa, Ontario, Canada and Toronto, Ontario, Canada throughout the period 1 March 2023 to 29 February 2024 (the "Period") for its CAs as enumerated in [Attachment A](#), Entrust has:

- disclosed its code signing ("CS") certificate lifecycle management business practices in its:
  - Certificate/ Certification Practice Statements ("CP/CPS") as enumerated in [Attachment B](#) including its commitment to provide CS certificates in conformity with the CA/Browser Forum Requirements on the Entrust's website, and provided such services in accordance with its disclosed practices
- maintained effective controls to provide reasonable assurance that:
  - CS subscriber information is properly collected, authenticated (for the registration activities performed by the CA, Registration Authority ("RA") and/or subcontractor) and verified;
  - the integrity of keys and CS certificates it manages is established and protected throughout their lifecycles.
- maintained effective controls to provide reasonable assurance that its CS Timestamp Authority is operated in conformity with CA/Browser Forum Code Sign Working Group requirements

And, for CAs # 1, 2, 6 and 7 as enumerated in Attachment A that are in scope for Principle 3: Extended Validation Code Signing ("EVCS") Service Requirements:

- maintained effective controls to provide reasonable assurance that:
  - EV CS subscriber information was properly collected, authenticated (for the registration activities performed by the CA, RA and subcontractor) and verified;
  - The integrity of keys and EV CS certificates it manages is established and protected throughout their life cycles.

in accordance with the [WebTrust Principles and Criteria for Certification Authorities – Code Signing Baseline Requirements v3.2](#).

Entrust does not use Signing Services and does not operate as EV Timestamp Authority. Accordingly, our procedures did not extend to controls that would address those criteria.

### Certification authority's responsibilities

Entrust's management is responsible for its statement, including the fairness of its presentation, and the provision of its described services in accordance with the WebTrust Principles and Criteria for Certification Authorities – Publicly Trusted Code Signing Certificates v3.2.

### Our independence and quality management

We have complied with the relevant rules of professional conduct / code of ethics applicable to the practice of public accounting and related to assurance engagements, issued by various professional accounting bodies, which are founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

The firm applies Canadian Standard on Quality Management 1, *Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements*, which requires the firm to design, implement and operate a system of quality management, including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

## Practitioner's responsibilities

Our responsibility is to express an opinion on management's statement based on our procedures. We conducted our procedures in accordance with Canadian Standard on Assurance Engagements 3000, *Attestation Engagements Other than Audits or Reviews of Historical Financial Information*, set out in the CPA Canada Handbook – Assurance. This standard requires that we plan and perform our procedures to obtain reasonable assurance about whether, in all material respects, management's statement is fairly stated, and, accordingly, included:

- (1) obtaining an understanding of Entrust's CS and EVCS certificate lifecycle management business practices, including its relevant controls over the issuance, renewal, and revocation of CS and EVCS certificates, CS and EVCS Signing Authority certificates, and CS and EVCS Timestamp Authority certificates;
- (2) selectively testing transactions executed in accordance with disclosed CS certificate lifecycle management practices;
- (3) testing and evaluating the operating effectiveness of the controls; and
- (4) performing such other procedures as we considered necessary in the circumstances.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Relative effectiveness of controls

The relative effectiveness and significance of specific controls at Entrust and their effect on assessments of control risk for subscribers and relying parties are dependent on their interaction with the controls, and other factors present at individual subscriber and relying party locations. We have performed no procedures to evaluate the effectiveness of controls at individual subscriber and relying party locations.

## Inherent limitations

There are inherent limitations in the effectiveness of any system of internal control, including the possibility of human error and the circumvention of controls. For example, because of their nature, controls may not prevent, or detect unauthorised access to systems and information, or failure to comply with internal and external policies or requirements. Also, the projection to the future of any conclusions based on our findings is subject to the risk that controls may become ineffective.

## Other matters

Without modifying our opinion, we noted the following other matters during our procedures:

Matter topic	Matter description
<b>1 Code Signing certificate issued with postal code as jurisdiction locality field</b>	As publicly disclosed in <a href="#">Bugzilla 1867130</a> , one (1) EV Code Signing certificate was issued with postal code inputted in the jurisdiction locality field, instead of a "City" name or a "Null" if no city was required.  The certificate was revoked on 26 November 2023.
<b>2 CAs not issuing Code Signing certificates during the Period</b>	The CA #6, 8-10 in Attachment A, did not issue any code signing certificates during the Period.

## Opinion

In our opinion, throughout the period 1 March 2023 to 29 February 2024, Entrust management's statement, as referred to above, is fairly stated, in all material respects, in accordance with the WebTrust Principles and Criteria for Certification Authorities – Publicly Trusted Code Signing Certificates v3.2.

This report does not include any representation as to the quality of Entrust's services beyond those covered by the WebTrust Principles and Criteria for Certification Authorities – Publicly Trusted Code Signing Certificates v3.2. nor the suitability of any of Entrust's services for any customer's intended purpose.

## Use of the WebTrust seal

Entrust's use of the WebTrust for Certification Authorities - Code Signing Seal constitutes a symbolic representation of the contents of this report, and it is not intended, nor should it be construed, to update this report or provide any additional assurance.

A handwritten signature in black ink that reads "Deloitte LLP". The signature is written in a cursive, flowing style.

## ENTRUST MANAGEMENT'S STATEMENT

Entrust Corporation ("Entrust") operates the Certification Authority ("CA") services as enumerated in [Attachment A](#), and provides Code Signing Certification Authority ("CS CA") services.

The management of Entrust is responsible for establishing and maintaining effective controls over its CS CA operations, including its CS business practices disclosure on its [website](#), CS key lifecycle management controls, and certificate lifecycle management controls. These controls contain monitoring mechanisms, and actions are taken to correct deficiencies identified.

There are inherent limitations in any controls, including the possibility of human error, and the circumvention or overriding of controls. Accordingly, even effective controls can only provide reasonable assurance with respect to Entrust's Certification Authority operations. Furthermore, because of changes in conditions, the effectiveness of controls may vary over time.

Entrust management has assessed its disclosures of its certificate practices and controls over its CS CA services. Based on that assessment, in Entrust management's opinion, in providing its CS CA services at Ottawa, Ontario, Canada and Toronto, Ontario, Canada throughout the period 1 March 2023 to 29 February 2024, Entrust has:

- disclosed its code signing certificate lifecycle management business practices in its:
  - Certificate Policy/ Certification Practice Statements ("CP/CPS") as enumerated in [Attachment B](#) including its commitment to provide CS certificates in conformity with the CA/Browser Forum Requirements on the Entrust website, and provided such services in accordance with its disclosed practices
- maintained effective controls to provide reasonable assurance that:
  - CS subscriber information is properly collected, authenticated (for the registration activities performed by the CA, Registration Authority ("RA") and/or subcontractor) and verified;
  - The integrity of keys and CS certificates it manages is established and protected throughout their lifecycles.
- maintained effective controls to provide reasonable assurance that its CS Timestamp Authority is operated in conformity with the applicable CA/Browser Forum Code Sign Working Group requirements

And, for CAs # 1, 2, 6 and 7 as enumerated in Attachment A that are in scope for Principle 3: Extended Validation Code Signing ("EVCS") Service Requirements:

- maintained effective controls to provide reasonable assurance that:
  - EV CS subscriber information was properly collected, authenticated (for the registration activities performed by the CA, RA and subcontractor) and verified; and
  - The integrity of keys and EV CS certificates it manages is established and protected throughout their life cycles.

in accordance with the [WebTrust Principles and Criteria for Certification Authorities – Code Signing Baseline Requirements v3.2](#).

Entrust does not use Signing Services and does not operate as EV Timestamp Authority. Accordingly, our statement does not extend to controls that would address those criteria.

A handwritten signature in black ink that reads "Bruce Morton".

Bruce Morton  
Director, Entrust Certificate Services  
May 21, 2024
